EVERGREEN MARINE CORPORATION AND SUBSIDIARIES

CONSOLIDATED FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS

**DECEMBER 31, 2008 AND 2007** 

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Stockholders of Evergreen Marine Corporation

We have audited the accompanying consolidated balance sheets of Evergreen Marine Corporation (the "Company") and its subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of income, of changes in stockholders' equity, and of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. The financial statements of certain consolidated subsidiaries as of and for the years ended December 31, 2008 and 2007 were audited by other auditors, whose reports have been furnished to us. Our opinion, insofar as it relates to the amounts included in the consolidated financial statements and information disclosed in Note 11 relating to these consolidated subsidiaries and long-term equity investments, is based solely on the reports of the other auditors. Those statements reflect total assets of 53,341,089 and 55,752,105 thousand New Taiwan dollars, constituting 39.99% and 40.32% of the consolidated total assets as of December 31, 2008 and 2007, and net operating revenues of 42,091,169 and 42,688,889 thousand New Taiwan dollars, constituting 32.63% and 29.46% of the consolidated net operating revenues for the years then ended, respectively. The financial statements of certain investee companies accounted for under the equity method as of and for the years ended December 31, 2008 and 2007, were also audited by other auditors, whose reports have been furnished to us. Long-term investments in these investee companies amounted to 17,194,932 and 18,639,656 thousand New Taiwan dollars, constituting 12.89% and 13.48% of the consolidated total assets as of December 31, 2008 and 2007 and the related investment loss was 544,945 and 261,708 thousand New Taiwan dollars for the years then ended, respectively.

We conducted our audits in accordance with the "Rules Governing the Examination of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the consolidated financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Evergreen Marine Corporation and its subsidiaries as of December 31, 2008 and 2007 and the results of its operations and its cash flows for the years then ended in conformity with the "Rules Governing the Preparation of Financial statements by Securities Issuers" and generally accepted accounting principles in the Republic of China.

PricewaterhouseCoopers April 20, 2009 Taipei, Taiwan Republic of China

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

### EVERGREEN MARINE CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31,2008 AND 2007

### (EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS/FOREIGN CURRENCY EXCEPT AS OTHERWISE INDICATED)

#### 1.HISTORY AND ORGANIZATION

#### (1)The company

Established on September 25, 1968, Evergreen Marine Corporation (the "Company") had authorized capital of \$36,000,000 and issued capital of \$30,609,360 as of December 31, 2008 with a par value of \$10 (in dollars) per share. The Company is mainly engaged in domestic and international marine transportation, shipping agency services, and the distribution of containers. The Company was approved by the Securities and Futures Commission (SFC), Ministry of Finance (MOF) (currently known as the Securities and Futures Bureau (SFB), Financial Supervisory Commission, Executive Yuan) to be a public company on November 2, 1982 and was further approved by the SFC to be a listed company on July 6, 1987. The Company's shares have been publicly traded on the Taiwan Stock Exchange since September 21, 1987. The Company and its subsidiaries included in the consolidated financial statements had 4,807 employees as of December 31, 2008. The Company and its subsidiaries are collectively referred herein as the Group.

Ownership (%)

A. For the information on investee companies included in the consolidated financial statements for the year ended December 31, 2008, please refer to Note 11.

#### B. Subsidiaries that are included in the consolidated financial statements:

- a) EGS, EGK, EMI, EGT, EGI, and EMA were acquired by Peony in December 31, 2007. As of December 31, 2007, Peony's equity interest were 51%, 100%, 51%, 51%, 99.99% and 51%, respectively.
- b) EIT, EES, ERU, EGD, EGU(DBL), EGD(WWX), EGF, EGN, EGV and EGB were acquired by Peony in December 31, 2007, Peony's equity interest were 55%, 55%, 51%, 100%, 100%, 100%, 99.4%, 100%, 51% and 99.99%, respectively.

- c) On October 31, 2008, Peony resolved to reduce its capital in EGB, from 99.99% to 95%, and the proceeds, based on its proportionate equity interest, were received. No gain or loss was incurred.
- (3) Subsidiary not included in the consolidated financial statements: None.
- (4) Adjustments for subsidiaries with different balance sheet dates: None.
- (5) Special operating risks in foreign subsidiaries: None.
- (6)Nature and extent of the restrictions on fund remittance from subsidiaries to the parent company: None.
- (7) Contents of subsidiaries' securities issued by the parent company: None.
- (8)Information on convertible bonds and common stock issued by subsidiaries: None.

#### 2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements of the Group are prepared in conformity with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and accounting principles gererally accepted in the Republic of China. The Group's significant accounting policies are as summarized below:

#### (1) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - a) Assets arising from operating activities that are expected to be realized or consumed, or are intended to be sold within the normal operating cycle;
  - b) Assets held mainly for trading purposes;
  - c) Assets that are expected to be realized within twelve months from the balance sheet date;
  - d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - a) Liabilities arising from operating activities that are expected to be paid off within the normal operating cycle;
  - b) Liabilities arising mainly from trading activities;
  - c) Liabilities that are to be paid off within twelve months from the balance sheet date;
  - d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date.
- C.Financial liabilities that expire within 12 months from the balance sheet date which meet the following conditions are classified as non-current liabilities:
  - a) The original contract term exceeds one year.

- b) Intended for long-term refinancing.
- c) Have completed long-term refinancing and extended the period of liabilities before the balance sheet date, or have the intention to refinance or extend the period of liabilities by one year after balance sheet date.

#### (2)Foreign currency transactions

- A. The Company and its subsidiaries maintain their accounts in New Taiwan dollars and their respective functional currencies, respectively. Transactions denominated in foreign currencies are translated into New Taiwan dollars or their functional currencies at the spot exchange rates prevailing at the transaction dates. Exchange gains or losses due to the difference between the exchange rate on the transaction date and the exchange rate on the date of actual receipt and payment are recognized in current year's profit or loss.
- B. Receivables, other monetary assets and liabilities denominated in foreign currencies are translated at the spot exchange rates prevailing at the balance sheet date. Exchange gains or losses are recognized in profit or loss.
- C. When a gain or loss on a non-monetary item is recognized directly in equity, any exchange component of that gain or loss shall be recognized directly in equity. Conversely, when a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss shall be recognized in profit or loss. However, non-monetary items that are measured on a historical cost basis are translated using the exchange rate at the date of the transaction.

#### (3) Translation of financial statements of foreign subsidiaries

Assets and liabilities of foreign subsidiaries are translated into New Taiwan dollars using the exchange rates at the balance sheet date. Equity accounts are translated at historical rates except for beginning retained earnings, which are carried forward from prior year's balance. Dividends are translated at the rates prevailing at the date of declaration. Profit and loss accounts are translated at weighted-average rates of the year. The resulting translation differences are included in "cumulative translation adjustments" under stockholders' equity.

#### (4) Cash and cash equivalents

Cash and cash equivalents include cash on hand and in banks and other short-term highly liquid investments which are readily convertible to known amount of cash and which are subject to insignificant risk of changes in value resulting from fluctuations in interest rates.

#### (5) Financial assets and financial liabilities at fair value through profit or loss

- A. Financial assets and financial liabilities at fair value through profit or loss are recognized and derecognized using trade date accounting and are recognized initially at fair value.
- B. These financial instruments are subsequently remeasured and stated at fair value, and the gain

or loss is recognized in profit or loss. The fair value of listed stocks, OTC stocks and closed-end mutual funds is based on latest quoted fair prices of the accounting period. The fair value of open-end and balanced mutual funds is based on the net asset value at the balance sheet date.

C. When a derivative is an ineffective hedging instrument, it is initially recognized at fair value on the date a derivative contract is entered into and is subsequently remeasured at its fair value. If a derivative is a non-option derivative, the fair value initially recognized is zero.

#### (6) Available-for-sale financial assets

- A. Available-for-sale financial assets are recognized and derecognized using trade date accounting and are initially stated at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. The financial assets are remeasured and stated at fair value, and the gain or loss is recognized in equity, until the financial asset is derecognized, at which time the cumulative gain or loss previously recognized in equity shall be recognized in profit or loss. The fair value of listed stocks and OTC stocks and closed-end mutual funds are based on latest quoted fair prices of the accounting period. The fair values of open-end and balanced mutual funds are based on the net asset value at the balance sheet date.
- C. If there is any objective evidence that the financial asset is impaired, the cumulative loss that has been recognized directly in equity shall be transferred from equity to profit or loss. When the fair value of an equity instrument subsequently increases, impairment losses recognized previously in profit or loss shall not be reversed. When the fair value of a debt instrument subsequently increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss recognized in profit or loss.

#### (7)Investments in bonds without active markets

- A. Investment in bonds without active markets is recognized and derecognized using trade date accounting and is stated initially at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. This financial asset is carried at amortized cost.
- C. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. If, subsequently, the fair value of the asset increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the previously recognized impairment loss shall be reversed to the extent of the amount of the amortized cost that would have been recognized at the date the impairment is reversed.

#### (8) Financial assets and financial liabilities carried at cost

- A. Investment in unquoted equity instruments is recognized or derecognized using trade date accounting and is stated initially at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. Such impairment loss shall not be reversed when the fair value of the asset subsequently increases.

#### (9) Derivative financial assets for hedging

Derivatives are initially recognized at fair value on the date a contract is entered into and are subsequently remeasured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument and the nature of the hedged item.

#### A. Fair value hedges:

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognized in profit or loss. Changes in the fair value of the hedged asset or liability that are attributable to the hedged item are recognized in profit or loss as an adjustment to the carrying amount of the hedged item.

#### B. Cash flow hedges:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in equity. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss.

- a)If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains or losses that were recognized directly in equity are transferred to profit or loss in the same period or periods when the hedged item affects profit or loss.
- b)If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, the associated gains and losses that were recognized directly in equity are transferred into profit or loss in the same period or periods during which the asset acquired or liability assumed affects profit or loss, However, any loss or portion of a loss recognized directly in equity expected not to be recovered in the future is reclassified to profit or loss.

#### c)Hedges of net investment in foreign operations:

Any gain or loss on the hedging instrument is recognized in equity; gains and losses accumulated in equity are recognized in profit or loss when the foreign operation is disposed.

#### (10)Derecognition of financial assets and liabilities

- A. Derecognition of the whole or parts of a financial asset occurs after the contractual rights that compose the asset is expired. When the whole or parts of a financial asset is transferred and contractual rights that compose the asset are given up, the proceeds received is treated as sales. When the transfer of financial assets does not qualify as a loss of contractual rights, then such transfer of assets is recognized as secured loan. Reacquisition of such assets' rights is not recognized as derivative financial assets.
- B. Derecognition of the whole or parts of a financial liability occurs after the obligation specified in the contract binding the financial liability is discharged, cancelled or expired. On grounds of either an exchange of a financial liability for another one with its creditor based on different terms or a significant modification of the original terms, such transaction is recognized as an extinguishment of the original financial liability and a new financial liability. Any gain or loss from extinguishment of the original financial liability is recognized as gains or losses in the same period of such transaction.

#### (11)Allowance for doubtful accounts

Allowance for doubtful accounts is provided according to the evaluation of the collectibility of notes, accounts, and other receivables, taking into account the bad debts incurred in prior years and the aging analysis of the receivables.

#### (12)Inventories

Inventories refer to fuel inventories and steel inventories. Fuel inventories are physically measured by the crew of each ship and reported back to the Head Office through telegraph for recording purposes at year-end. Valuation of inventories is based on the exchange rate prevailing at the end of the fiscal year. The perpetual inventory system is adopted for steel inventory recognition. Steel inventories are stated at cost. The cost is determined using the weighted-average method. At the end of year, inventories are evaluated at the lower of aggregate cost or market value. The market value is based on the replacement cost for raw materials and supplies and net realizable value for work in process, finished goods and merchandise.

#### (13)Long-term equity investments accouunted for under the equity method

A. Long-term equity investments in which the Group holds more than 20% of the investee company's voting shares or has the ability to exercise significant influence on the investee's operational decisions are accounted for under the equity method. The excess of the initial investment cost over the acquired net asset value of the investee attributable to goodwill is no longer amortized, effective January 1, 2006. Retrospective adjustment of the amount of goodwill amortized in previous year is not required. The excess of acquired net asset value of investee over the initial investment cost is allocated proportionately and applied as a reduction

- to the book values of identifiable non-current assets, and any remaining amount of such excess after this allocation is credited to extraordinary gains.
- B. Exchange differences arising from translation of financial statements of overseas investee companies accounted for under the equity method are recorded as "cumulative translation adjustments" under stockholders' equity.

#### (14)Property, plant and equipment

- A. Property, plant and equipment are stated at cost. Interests incurred on the loans used to bring the assets to the condition and location necessary for their intended uses are capitalized.
- B. Major improvements and renewals are capitalized and depreciated accordingly. Maintenance and repairs are expensed as incurred.
- C. Depreciation is calculated on a straight-line basis according to the respective assets' useful lives regulated by the Ministry of Finance plus one year for salvage value.
- D. For ships and equipment that are still in use after expiration of their useful lives, depreciation is provided based on the original method and the reassessed useful lives and salvage value. For other assets that are still in use after expiration of their useful lives, depreciation is provided based on the original method to the extent that the salvage value falls below \$3,000. Where impairment loss is recognized, property, plant and equipment shall be depreciated over their remaining useful lives based on their carrying values adjusted for the impairment loss.

#### (15)Deferred charges

Deferred charges refer to the expenses incurred for decoration, issuance of corporate bonds, computer software and cable installation. The expenses incurred for decoration are amortized on a straight-line basis over five years, expenses incurred for issuance of corporate bonds are amortized over the issuance period, expenses incurred for issuance of convertible bonds are amortized over the period from the issuance date to the expiry date of the redemption rights and the remaining are amortized over 2-3 years.

#### (16)Impairment of non-financial assets

The Group recognizes impairment loss when there is indication that the recoverable amount of an asset is less than its carrying amount. The recoverable amount is the higher of the fair value less costs to sell and value in use. When the impairment no longer exists, the impairment loss recognized in prior years shall be recovered.

#### (17)Convertible bonds

Bonds payable issued before December 31, 2005 are accounted for as follows:

A. Convertible bonds are stated at their issuance price. The excess of the redemption price over the face value of the convertible bonds is amortized using the interest method over the redemption period.

- B. When bonds are converted, the par value of the bonds is credited to common stock and any excess is credited to capital reserve. No gain or loss is recognized on bond conversion.
- C. Expenditures incurred on issuance of convertible bonds are classified as deferred assets and amortized over the life of the bonds. In cases where the bonds are converted or redeemed before the maturity date, the issuance expenditures are expensed in proportion to the amount of bonds converted or redeemed.
- D. Where bonds are not redeemed during the redemption period, the interest on redemption is amortized under the interest method over the remaining life of the bonds. If the fair value of the underlying shares at the expiry date of the redemption option exceeds the redemption price, the interest on redemption is reclassified to capital reserve.

#### (18)Pension

Under the defined benefit pension plan, net periodic pension costs are recognized in accordance with the actuarial calculations. Net periodic pension costs include service cost, interest cost, expected return on plan assets, amortization of unrecognized net transition obligation, and gains or losses on plan assets. Unrecognized net transition obligation is amortized on a straight-line basis over 15 years. Under the defined contribution pension plan, net periodic pension costs are recognized as incurred.

#### (19)Income taxes

- A. Inter-period and intra-period income tax allocation methods are employed. Provision for income tax includes deferred income tax resulting from temporary differences, investment tax credits and loss carryforward. Valuation allowance on deferred tax assets is provided to the extent that it is more likely than not that the tax benefit will not be realized. Over or under provision of prior years' income tax liabilities is included in current year's income tax.
- B. Investment tax credits arising from expenditures incurred on acquisitions of equipment or technology, research and development, employees' training, and equity investments are recognized in the year the related expenditures are incurred.
- C. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

#### (20) Employees' bonuses and directors' and supervisors' remuneration

Effective January 1, 2008, pursuant to EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007, "Accounting for Employees' Bonuses and Directors' and Supervisors' Remuneration", the costs of employees' bonuses and directors' and supervisors' remuneration are accounted for as expenses and liabilities, provided that such a recognition is required under legal obligation or constructive obligation and those amounts can be estimated reasonably. However, if the accrued amounts for employees' bonuses and directors' and

supervisors' remuneration are significantly different from the actual distributed amounts resolved by the stockholders at their annual stockholders' meeting subsequently, the differences shall be recognized as gain or loss in the following year. In addition, in accordance with EITF97-127 of the Accounting Research and Development Foundation, R.O.C., dated March 31, 2008, "Criteria for Listed Companies in Calculating the Number of Shares of Employees' Stock Bonus", the Company calculates the number of shares of employees' stock bonus based on the closing price of the Company's common stock at the previous day of the stockholders' meeting held in the year following the financial reporting year, and after taking into account the effects of ex-rights and ex-dividends.

#### (21) Revenue, cost and expense recognition

Revenues are recognized when the earning process is substantially completed and are realized or realizable. Costs and expenses are recognized as incurred.

#### (22)Basic (diluted) earnings per share

Basic earnings per share is calculated based on the net income (loss) attributed to common stockholders and the weighted-average number of common shares outstanding during the period. Any capital increase (reduction) through cash infusion (withdrawal), treasury stock transactions or other factors that would cause a change in the number of outstanding shares are incorporated in the calculation on a weighted-average basis according to the circulation period. Adjustments are made retroactively to the weighted-average number of outstanding shares if there is any increase (decrease) in the number of outstanding shares which does not result in changes in the stockholders' percentage of equity interest. If the effective dates of the aforementioned events fall between the balance sheet date and the issue date of the financial statements, retroactive adjustments are also required. For the purpose of calculating diluted earnings per share, it is assumed that the convertible bonds are converted into the common stock on the date of issuance of the bonds, and the weighted-average number of outstanding shares is adjusted for the dilutive effect of the convertible bonds.

#### (23)Use of estimates

- A. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those assumptions and estimates.
- B. Accrued expenses are recorded at the amounts stated in the original supporting documents. Foreign port charges without supporting documents are estimated based on past records and period-end sailing schedules. Differences between the expenses actually incurred in the

following year and the estimated accrued expenses are credited or charged to operating costs or expenses in the following year.

#### 3. CHANGES IN ACCOUNTING PRINCIPLES

- A. Effective January 1, 2007, the Group adopted the Statement of Financial Accounting Standards (SFAS) No. 37, "Accounting for Intangible Assets". Such change in accounting principle had no effect on the Company's financial statements as of and for the year ended December 31, 2008.
- B. Effective January 1, 2008, the Group adopted the Statement of Financial Accounting Standards (SFAS) No. 39, "Accounting for Share-based Payment". Such change in accounting principle had no effect on the Company's financial statements as of and for the year ended December 31, 2008.
- C. Effective January 1, 2008, the Group adopted EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007. Such change in accounting principle had no effect on the Company's financial statements as of and for the year ended December 31, 2008.

Temporary debits	121,630	298,199
	\$ 2,630,649	\$ 3,266,565

#### A. Agency accounts

These accounts occur when foreign agencies, based on the agreement with the Group, deal with foreign port formalities regarding arrival and departure of ships, cargo loading, discharging, and forwarding, collection of freight, and payment of expenses incurred in foreign ports.

#### B. Agency reciprocal accounts

Temporary accounts between the Group and Evergreen International S.A., Gaining Enterprise S.A., Italia Marittima S.P.A. and Evergreen Marine (Hong Kong) LTD. These accounts occur as these ship owners incur foreign port expenses and related rental expenses.

#### (8) Available-for-sale financial assets - non-current

	Dece	mber 31, 2008	December 31, 2007		
Listed (TSE and OTC) stocks					
Central Reinsurance Corp.	\$	490,801	\$	490,801	
Fubon Financial Holding Co., Ltd.		3,871		6,187	
<b>,</b>		494,672		496,988	
Adjustments	(	102,084)		275,076

	Dece	mber 31, 2008	Dece	mber 31, 2007	
Unlisted stocks	\$	5,089,567	\$	5,040,770	

- A.The Group's investment in unlisted stocks was measured at cost since its fair value cannot be measured reliably.
- B. In April 2007, Taishin International Telecommunication Co., Ltd. purchased publicly-listed shares of Taiwan Fixed Network Co. Ltd. The Company sold all its shares of Taiwan Fixed Network based on the purchase price of \$8.3 (in dollars) per share. The Company's investment cost was \$700,000, and the purchase price was \$581,000. As a result, a realized impairment loss of \$119,000 was recognized for the year ended December 31, 2007.
- C. In August 2008 and April 2007, Power World Fund Inc. (PWF) reduced its capital at a conversion rate of 11.67% and 18.93%, respectively. The amount returned to the stockholders was \$10 (in dollars) par value per share. As a result of the capital reduction, the proceeds received by the Company based on its proportionate equity interest in PWF were \$1,705 and \$3,409, respectively, and the carrying amount of the Company's investment in PWF was written down by \$1,705 and \$3,409, respectively. No gain or loss was incurred.
- D. After the issuance of common stock of GRETEC Construction Corp., on December 24, 2007, the Company's Board of Directors resolved to purchase 3,500 shares at \$12.5 (in dollars) per share, resulting in a total investment of \$43,750, which is recorded under financial assets carried at cost.
- E. The shares of Classic Outlook Ltd. and Everup Profits Ltd. have been pledged as collaterals for the loans borrowed by Clove Holding Ltd.. Please refer to Notes 4(22) and 6 for details.

#### (10)Investments in bonds without active markets

			 December			er 31,	
Item	Period	Coupon rate	 2008			2007	
Covertible Bond - Tuntex (Thailand)	03.10.05~	0%	\$	-	\$	10,201	
Public Company Limited	03.10.13						
Add: Unrealized exchange gain				_		1,956	
			\$ 	_	\$	12,157	

- A. In 1997, the Company purchased the convertible bonds of US\$180 issued by Tuntex (Thailand) Public Company Limited (TUNTEX). As Tuntex encountered financial difficulties, it defaulted at maturity of the bonds. Accordingly, the Company fully recognized the losses on the bonds in 2001. Tuntex subsequently filed an application to the court for corporate restructuring and reached a consensus with the creditors to reissue the abovementioned bonds. The convertible bonds allocated to the Company were recorded at face value of THB15,737 (NT\$12,581), and the Company recognized income of \$12,581 under "non-operating income others" for the year ended December 31, 2005.
- B. Effective January 1, 2006, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 34, "Accounting for Financial instruments" and the convertible bonds were reclassified as "Investments in bonds without active markets non-current". The book value, adjusted by spot exchange rate, was amortized by cost method, and the difference between the value and the original cost unrealized loss (after tax) of \$367 is recognized as a reduction of 2006's stockholders' equity.
- C. For stock conversion right of the above convertible bonds, please refer to Note 4 (20).
- D. As of December 31, 2008, as a creditor of TUNTEX, the Company recognized distributed disposal loss of \$12,451, after the liquidation of TUNTEX in September, 2008.

### (11)Long-term equity investments accounted for under the equity method

- A. All the aforementioned ships have been insured based on the market value of each vessel or the requirement of the creditor banks. As of December 31, 2008 and 2007, the insurance coverage amounted to USD1,642,800 and USD1,054,872, respectively. In addition, the ships were covered by the protection and indemnity insurance with GARD. The indemnity amounts were unlimited except for oil pollution which was limited to both USD 8 billion as of December 31, 2008 and 2007.
- B. The Group's loading/discharging equipment has been covered by the general insurance for construction machinery with insurance coverage amounting to \$17,847,215 and \$6,514,031 as of December 31, 2008 and 2007, respectively. The fire and car insurance coverage for the office equipment was \$3,765,770 and \$2,659,986 as of December 31, 2008 and 2007, respectively. Container facilities were insured with full coverage amounting to USD299,765 and USD272,146 as of December 31, 2008 and 2007, respectively.
- C. The Company entered into a construction agreement with Kaohsiung Harbor Bureau to complete the extension project of Pier No. 116 of Kaohsiung Harbor. The Company was entitled to use the pier free of charge for 16 years commencing from the date of completion. Upon expiration of the 16-year period, the Company was obliged to return the pier to the Bureau but had the privilege to lease the pier. The construction project was reclassified to dock facilities upon completion on January 1, 1992. The Company leased the pier on a ten-year contract effective March 1, 2008 and amortized it on a straight-line basis over 10 years with the amortization recognized as loading/discharging expenses.
- D. The Company entered into a construction agreement with Kaohsiung Harbor Bureau to complete the extension project of Piers No. 79~81 of Kaohsiung Harbor. The Company is entitled to use the piers free of charge for 10 years commencing from the date of completion. Upon expiration of the 10-year period, the Company is obliged to return the piers to the Bureau but had the privilege to lease the piers. The construction project was reclassified to dock facilities upon completion in the beginning of 2000, and is amortized on a straight-line basis over 10 years with the amortization recognized as loading/discharging expenses.

			 December, 31			
	Item	Period	 2008		2007	
	Convertible bonds -					
	Tuntex (Thailand) Public					
Stock conversion right	Company Limited	03.10.13	\$ 		\$	9,004

The above financial liability is the embedded stock conversion right obtained by the Company through acquisition of convertible corporate bonds issued by Tuntex (Thailand) Public Company Limited (TUNTEX) during the first quarter of 2005. As stated in the terms of the agreement, TUNTEX can choose either to pay back by cash at face value of corporate bonds (THB15,737) or convert to stock on the maturity date. Effective January 1, 2006, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 34, "Accounting for Financial Instruments". The convertible bonds were discounted at effective interest rate at its acquisition. The unrealized loss of THB 11,263 (NTD 9,004), after tax, was recognized as a deduction of 2006's stockholders' equity. Thereafter, the unrealized loss is evaluated by cost method using historical exchange rate.

#### (21)Corporate bonds payable

	December 31, 2008		December 31, 2007	
Secured corporate bonds	\$	-	\$	1,500,000
Unsecured corporate bonds		232,100		797,000
Add: Accrued interest compensation		-		4,964
		232,100		2,301,964
Less: Current portion	(	232,100) (	(	1,500,000)
	\$	-	\$	801,964

- A. On January 12, 2004, the Company issued its first unsecured domestic convertible bonds (referred herein as the "Bonds") at face value, totaling \$4 billion. The major terms of the issuance are set forth below:
  - a) Period: 5 years (January 12, 2004 to January 11, 2009)
  - b) Coupon rate: 0% per annum
  - c) Principal repayment and interest payment Unless the Bonds are redeemed, repurchased, resold, converted or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Bonds.
  - d) Collaterals

The Bonds are unsecured. However, if the Company subsequently issues other convertible bonds secured with collaterals, the rights of the bondholders to claim their credits and the collaterals are set at the same rank as the holders of the convertible bonds issued subsequently.

#### e) Redemption at the Company's option

- (a) During the period from 3 months after the issuance of the Bonds to 40 days before the maturity of the Bonds, if the closing price of the Company's common stock at the Taiwan Stock Exchange is equal to or more than 50% of the conversion price for a period of 30 consecutive trading days, the Company may redeem 100% of the outstanding bonds in cash at the redemption price calculated based on the predetermined yield rate on redemption within 30 trading days after the abovementioned 30 consecutive trading days. The yield rate on redemption is 0.20% per annum during the period from 3 months to 3 years after the Bonds' issuance. During the period from 3 years after the Bonds' issuance to 40 days before the maturity of the Bonds, the Bonds are redeemable at their face value.
- (b) During the period from 3 months after the issuance of the Bonds to 40 days before the maturity of the Bonds, if the total amount of the Bonds outstanding after the conversion by the bondholders is less than \$400 million (10% of the total issued amount), the Company may redeem the outstanding bonds in cash in accordance with the terms stated in Paragraph (a) above.
- (c) When the Company issues its redemption notice, if the bondholders do not reply before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the conversion price in effect at the expiration of the notice period.

#### f) Redemption at the bondholders' option

During the period from 30 days before the 3-year maturity of the Bonds to the date of maturity, the bondholders may require the Company to redeem their bonds in cash at the face value plus interest compensation (i.e. 100.60% of the face value with a yield rate of 0.20% per annum).

#### g) Terms of conversion

#### (a) Conversion period

The bondholders may convert the Bonds into the Company's common stock during the period from 3 months after the Bonds are issued to 10 days before the maturity of the Bonds.

The bondholders are prohibited from exercising their conversion right during the

period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

#### (b) Conversion price

The conversion price is the lowest of the three average closing prices of the Company's common stock during the 10, 15, and 20 trading days before October 3, 2003 multiplied by 115%. If any cash or stock dividends are distributed before October 3, 2003, the closing price used in the computation of the conversion price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the conversion price is set to the date on which the Bonds are converted, the conversion price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The conversion price at the issuance of the Bonds was set at \$28.60 (in dollars). As of the date of the issuance of this financial statement, the adjusted conversion price was \$21.65 (in dollars).

#### h) Others

(a) Entitlement to cash dividends

The bondholders who request to convert the Bonds on a date which is more than 3 trading days before the announcement of cash dividends are entitled to the cash dividends resolved by the stockholders in the current year.

The bondholders who request to convert the Bonds 3 trading days before the announcement of cash dividends or later are not entitled to the cash dividends resolved by the stockholders in the current year, but are entitled to the cash dividends resolved by the stockholders in the following year.

- (b) The affiliated companies of the Company may subscribe the Bonds, but do not have the right to convert the Bonds into the Company's common stock.
- B. On September 6, 2004, the Company issued its second unsecured domestic convertible bonds (referred herein as the "Second Bonds") at face value, totaling \$4.5 billion. The major terms of the issuance are set forth below:
  - a) Period: 5 years (September 6, 2004 to September 5, 2009)
  - b) Coupon rate: 0% per annum
  - c) Principal repayment and interest payment

Unless the Second Bonds are redeemed, repurchased, resold, converted or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Second Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Second Bonds.

#### d) Collaterals

The Second Bonds are unsecured. However, if the Company subsequently issues other convertible bonds secured with collaterals, the rights of the holders of the Second Bonds to claim their credits and the collaterals are set at the same rank as the holders of the convertible bonds issued subsequently.

#### e) Redemption at the Company's option

- (a) During the period from 3 months after the Second Bonds are issued to 40 days before the maturity of the Second Bonds, if the closing price of the Company's common stock at the Taiwan Stock Exchange is equal to or more than 50% of the conversion price for a period of 30 consecutive trading days, the Company may redeem the outstanding bonds in cash at the face value of the Second Bonds within 30 trading days after the abovementioned 30 consecutive trading days.
- (b) During the period from 3 months after the Second Bonds are issued to 40 days before the maturity of the Second Bonds, if the total amount of the Second Bonds outstanding after the conversion by the bondholders is less than \$450 million (10% of the total issued amount), the Company may redeem the outstanding bonds at their face value any time during the 40 days before the maturity of the Second Bonds.
- (c) When the Company issues its redemption notice, if the bondholders do not reply before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the conversion price in effect at the expiration of the notice period.

#### f) Redemption at the bondholders' option

During the period from 30 days before the 3.5-year maturity of the Second Bonds to the date of maturity, the bondholders may require the Company to redeem their bonds in cash at the face value.

#### g) Terms of conversion

#### (a) Conversion period

The bondholders may convert the Second Bonds into the Company's common stock during the period from 1 month after the Second Bonds are issued to 10 days before the maturity of the Second Bonds.

The bondholders are prohibited from exercising their conversion right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

#### (b) Conversion price

The conversion price can be any of the three average closing prices of the Company's

common stock during the 1, 3, and 5 trading days before August 24, 2004 multiplied by 103%. If any cash or stock dividends are distributed before August 24, 2004, the closing price used in the computation of the conversion price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the conversion price is set to the date on which the Second Bonds are converted, the conversion price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The conversion price at the issuance of the Second Bonds was set at \$28.50 (in dollars). As of the date of the issuance of this financial statement, the adjusted conversion price was \$18.07 (in dollars).

#### h) Entitlement to cash dividends

The bondholders who request to convert the Second Bonds during the period from January 1 of the current year to any date which is more than 3 trading days before the announcement of cash or stock dividends are entitled to the cash or stock dividends resolved by the stockholders in the current year. Conversion of the Second Bonds is prohibited during the period from 3 trading days before the announcement of cash or stock dividends to the ex-dividend date.

The bondholders who request to convert the Second Bonds during the period from the date following the ex-dividend date to December 31 of the current year are not entitled to the cash or stock dividends resolved by the stockholders in the current year, but are entitled to the cash or stock dividends resolved by the stockholders in the following year.

(Inclusive of NTD and foreign currencies)

- A. Please refer to Note 6 for details of the collaterals pledged for the above long-term loans.
- B. The above other long-term loans belong to its subsidiary-CLOVE financed from Edgeware Profits Ltd. for Classic Outlook Investment Ltd. and Everup Profits Ltd.'s equity. Such loans were secured by share of stock of the said equity investments as collateral.

#### (23)Pension

A. In accordance with the Labor Pension Act ("the Act"), effective July 1, 2005, which adopted a defined contribution scheme, employees of the Company and its subsidiary-TTSC may choose to be subject to either the Act, maintaining their seniority before the enforcement of the Act, or the pension mechanism of the Labor Standard Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its subsidiary-TTSC contribute monthly an amount equal to 9.6% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the Labor Pension Fund Supervisory Committee.

#### a) Actuarial assumptions

	December 31, 2008	December 31, 2007
Discount rate	3.25%	3.25%
Increase in future salary level	2.00%	2.00%
Expected rate of return on plan assets	3.25%	3.25%

b) Reconciliation of the funded status of the plan to the carrying amount of accrued pension liability is as follows:

	December 31, 2008		Decembe	er 31, 2007
Benefit obligations:				
Vested benefit obligation (VBO)	(\$	282,963)	(\$	261,733)
Non-vested benefit obligation	(	1,110,059)	(	1,027,794)
Accumulated benefit obligation (ABO)	(	1,393,022)	(	1,289,527)
Effects of future salary increments	(	163,719)	(	164,985)
Projected benefit obligation (PBO)	(	1,556,741)	(	1,454,512)
Fair value of plan assets		583,079		569,304
Funded status	(	973,662)	(	885,208)
Unrecognized net transaction obligation		104,218		130,118
Unamortized prior service cost		19,287		20,895
Unrecognized loss on plan assets		596,827		541,138
Additional accrued pension liability	(	556,613)	(	527,166)
Accrued pension liability	(\$	809,943)	( <u>\$</u>	720,223)

c) The pension costs comprise the following:

	For the years ended December 31,						
		2008		2007			
Service cost	\$	58,442	\$	65,284			
Interest cost		46,757		44,310			
Expected return on plan assets	(	18,412)	(	16,932)

Unrecognized net transaction obligation		25,901		25,900			
Prior service cost		1,607		1,607			
Unrecognized loss on plan assets		29,823		31,538			
Net pension costs	\$	144,118	\$	151,707			

- B.Effective July 1, 2005, the Company and its subsidiary-TTSC established a funded defined contribution pension plan (the "New Plan") under the Labor Pension Act ("the Act"). Employees have the option to be covered under the New Plan. Under the New Plan, the Company and its subsidiary-TTSC contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits are to be paid monthly or in lump sum upon termination of employment.
- C.The pension costs under the defined benefit plan and the defined contribution plan for the years ended December 31, 2008 and 2007 were \$170,974 and \$175,224, respectively.

#### (24)Capital stock

- A. As of December 31, 2008 and 2007, the Company's authorized capital was \$36,000,000, and the paid-in capital was \$30,609,390 and \$30,338,695, respectively, divided into 3,060,939 thousand and 3,033,870 thousand shares of common stocks, respectively, with a par value of \$10 per share.
- B. Details of the common stock converted from the unsecured domestic convertible bonds issued by the Company for the years ended December 31, 2008 and 2007 are set forth below:

	For the years ended December 31,							
	20	800		2007				
	No. of Shares			No. of Shares				
	(in '000)	Amount		(in '000)	Amount			
First unsecured								
bonds	19,647	\$	196,475	45,899	\$	458,990		
Second unsecured								
convertible bonds	7,422		74,220	72,041		720,412		
Total	27,069	\$	270,695	117,940	\$	1,179,402		

#### (25)Capital surplus

The Securities and Exchange Act requires that capital reserve shall be exclusively used to cover accumulated deficits or to increase capital and shall not be used for any other purpose. However, capital reserve arising from paid-in capital in excess of par value on issuance of common stock and donations can be capitalized once a year, provided that the Company has no accumulated deficits and the amount to be capitalized does not exceed 10% of the paid-in capital.

## (26)Appropriation of retained earnings and dividend policy

A. On June 23, 2006, the Company's Shareholders' Meeting resolved to amend the Company's Articles of Incorporation on dividends and distribution of earnings effective 2006. The revised policies are as follows:

According to Article 26 of the Company's Articles of Incorporation, if there is any profit for a fiscal year, the Company shall first make provision for income tax, and cover prior years' losses, then appropriate 10% of the residual amount as legal reserve. Dividends shall be proposed by the Board of Directors and resolved by the stockholders. Bonuses paid to employees shall be at least 0.5% of the total distributed amount and the remuneration paid to the directors and supervisors shall not exceed 5% of the total distributed amount. The Company is currently at the stable growth stage. In order to facilitate future expansion plans, dividends to stockholders are distributed mutually in the form of both cash and stocks with the basic principle that the ratio of cash dividends to total stock dividends shall not be lower than 10%.

#### B. Legal reserve

Pursuant to the Company Law, the Company is required to set aside 10% of its annual after-tax net income as legal reserve until the balance of such reserve equals the Company's paid-in capital. Utilization of the legal reserve is limited to offsetting deficits and capital increase. Appropriation of the legal reserve as cash dividends is prohibited.

#### C. Special reserve

- D. If there is any negative stockholders' equity item recognized by the Company, such as unrealized loss on the decline in market value of long-term equity investments and cumulative translation adjustments, the Company is required to set aside an amount equal to the amount of the negative stockholders' equity item as special reserve from the after-tax net income. If the negative stockholders' equity items are subsequently reversed, an amount not exceeding the reversed amount can be appropriated from the special reserve.
- E. Appropriation of the 2007 and 2006 earnings as resolved by the stockholders on June 18, 2008 and June 27, 2007, respectively, is set forth below:

	2007					2006					
			Div	vidend per share			Div	vidend per share			
	<u>Tc</u>	tal Amount		(in dollars)	Tota	al Amount		(in dollars)			
Legal reserve	\$	1,038,170			\$	41,158					
Cash dividends		5,201,453	\$	1.7		877,045	\$	0.3			
Remuneration to directors	}										
and supervisors		45,600				7,000					
Cash bonus to employees		36,000				33,620					
	\$	6,321,223			\$	958,823					

Appropriation of the 2007 and 2006 earnings was calculated by the following formula. After distributing the bonus to employees and the remuneration to directors and supervisors, the after-tax basic earning per share for 2007 and 2006 decreased from \$3.53 to \$3.50 and from \$0.14 to \$0.13, respectively.

Net income, after-tax—Cash bonus to employees—Remuneration to directors and Formula: supervisors

Weighted-average number of outstanding shares (after retroactive adjustment)

2007 :(\$10,381,702 - \$36,000 - \$45,600)/ 2,943,402 thousand shares = \$3.50

2006 :(\$411,580 - \$33,620 - \$7,000)/ 2,911,327 thousand shares = \$0.13

E. The information related to the appropriation of the Company's 2008 earnings as proposed by the Board of Directors and resolved by the stockholders' meeting in 2009 will be posted in the "Market Observation Post System" on the website of the Taiwan Stock Exchange when it becomes available.

#### (27)Operating revenues

	For the years ended December 31,						
		2008	2007				
Marine freight income	\$	121,033,118	\$	133,285,318			
Ship rental income		1,565,202		7,234,897			
Commission income and agency							
service income		3,234,834		109,413			
Container manufacturing income		1,441,967		2,338,463			
Container income and others		1,727,135		1,956,366			
	\$	129,002,256	\$	144,924,457			

# (28)Income tax

Income tax expense and income tax payoff are reconciled as follows:

	For the year ended December 31,						
		2008	2007				
Income tax expenses	\$	453,078	\$	1,411,168			
Add (Less):

#### (3)Endorsements and guarantees for related parties

Endorsements and guarantees provided for its related parties are as follows:

	Decembe	er 31, 2008	December 31, 2007		
CCT	USD	53,000	USD	53,000	
TCT	USD	20,250	USD	85,592	
ITS	USD	10,000	USD	10,000	

#### (4)Significant contracts with related parties

- A. The Company entered into an agreement with EIC for consulting services on business management, computer information, and shipping affairs. Except for payments made on behalf of the Company which are charged on actual amounts, the remaining fees are charged on an hourly basis or by cost plus method. The contract took effect on July 1, 1996 and will remain effective unless terminated.
- B. The Company entered into an agreement with EIC for services, such as cargo-forwarding and freight-collecting. As of December 31, 2008 and 2007, the receivables were \$32,833 and \$60,901, respectively. The contract has been effective since 2002 unless terminated.
- C. The Company entered into an agreement with ESRC for security service in the Taipei office, the Kaohsiung office, and the Kaohsiung container yards. The monthly service fees were \$940 for Taipei and \$1,614 for Kaohsiung. For commitment of the long-term contracts, please refer to Note 7.

D. The Group entered into agency agreements with its related parties to manage petty cash required by their vessels, and payments of Taiwanese crew salaries and insurance premiums. The transactions are recorded as "temporary debits". As of December 31, 2008 and 2007, the debit balances of the account are as follows:

	Decem			
EIS	\$	10,848	\$	13,029
GESA		6,345		4,861
	\$	17,193	\$	17,890

E. The Group entered into agency agreements with its related parties, whereby the related parties act as the Group's overseas agents to deal with foreign port formalities, such as arrival and departure of the Group's ships, cargo stevedoring and forwarding, freight collection, and payment of expenses incurred in foreign ports. The transactions are recorded as "agency accounts". As of December 31, 2008 and 2007, the balances of the accounts are as follows:

a) Debit balance of agency accounts

	Decem	ber 31, 2008	December 31, 2008			
EIC	\$	62,128	\$	-		
b) Credit balance of agency accounts						
	Decem	ber 31, 2008	Decem	ber 31, 2007		
EIC	\$		\$	10,468		

F. Temporary accounts, between the Group and Evergreen International S.A., Gaining Enterprise S.A. and Italia Marittima S.P.A., incurred due to foreign port formalities and pier rental expenses are recognized as agency reciprocal accounts in "Other current assets (liabilities)". Details of the balance as of December 31, 2008 and 2007 are as follows:

December 31, 2008

December 31, 2007

a) Debit balance of agency reciprocal accounts

		,		
ITS	\$	555,767	\$	1,756,597

·		December 31, 2008	December 31, 2007	
EIS	<u>\$</u>	1,193,448	\$	1,164,898

G. The Company has been commissioned by its related parties to manage their vessel affairs. The management fees are charged monthly and are recorded as operating revenues. Details of the management fees recognized for the years ended December 31, 2008 and 2007 are as follows:

For the years ended December 31, 2007 2008 90,797 \$ 94,271 \$ **EITC** 99,569 102,622 EIS 21,203 19,523 **GESA** 1,710 5,077 ITS \$ 216,753 218,019

### (5)Disclosure of management's salaries, bonuses and allowance

	For the years end	led Dece	ember 31,	
	 2008	2007		
Salary and bonuses	\$ 131,933	\$	137,352	
Administrative fees	3,296		2,880	
Directors' and supervisors' remuneration and employees'				
bonuses	 28,930		68,770	
	\$ 164,159	\$	209,002	

- A. "Salaries and bonuses" includes salaries, premiums, pensions, severance pay, bonuses, and incentives.
- B. Administrative fees include travel allowances, discretionary allowances, stipends, and provision of vehicles and housing, etc.
- C. "Directors' and supervisors' remuneration and Employees' bonuses" refers to the fees recognized according to EITF96-052 of the Accounting Research and Development Foundation, R.O.C.. The amounts for 2007 were based on the actual amounts distributed.
- (6) As a means to give back to society, the Company sponsored charities for the public good and donated \$54,000 to Chang Yang-Fu Foundation in 2008.

#### 6.PLEDGED ASSETS

#### 7.COMMITMENTS AND CONTINGENT LIABILITIES

A. Details of the stand-by letters of credit issued by the banks on behalf of the Group are as follows:

Guarantor	December 31,	2008	Decemb	per 31, 2007
Bank of America	USD	5,000	USD	5,000

B. Endorsements and guarantees issued by the Group are as follows:

Companies receiving guarantee	Decem	ber 31, 2008	December 31, 2007			
CCT	USD	53,000	USD	53,000		
TCT	USD	20,250	USD	85,592		
ITS	USD	10,000	USD	10,000		

C. A former stockholder of the Company sold some of its shares through issuance of global depository receipts (GDRs). The issuance of GDRs was approved by the SEC on June 19, 1996 as per Letter (85) Tai-Cai-Zheng (1) No. 35410. On August 2, 1996, the GDRs were approved by the UK governing authority to be listed on the London Stock Exchange and were issued in Asia, Europe and the US. The initial number of units issued was 5,449,592 thousand, representing 54,495,920 thousand shares of the Company's common stock at \$50.50 (in dollars) per share, and the number of supplementary units issued was 817,438. In total, the number of units issued was 6,267,030, representing 62,670,300 shares of the Company's common stock at \$50.50 (in dollars) per share, and the GDRs issued amounted to USD115 million. Another 2,053,122 thousand units,

representing 20,531,279 thousand shares of the Company's common stock, were issued during the period from 1997 to December 31, 2008. As of December 31, 2008, 7,988,822 thousand units were redeemed and 331,330 thousand units were outstanding, representing 3,313,359 thousand shares of the Company's common stock.

- D. In 1999, due to the conflicts from the contract to import and export goods, a lawsuit was filed against Shenzhen Greentrans Transportation Co., Ltd. (SGTC) by another company. SGTC had authorized the agent lawyer to litigate, requesting an indemnity of RMB10,527 thousand plus the interest, by December 31, 2008. In this case, the company received a favorable decision from the Shenzhen Intermediate People's Court as the winning party of this lawsuit. However, the plaintiff appealed the case to a higher court, the Gung Dong High People's Court, which in 2001 had decided against the company and had secured part of the transportation equipment. (As of December 31, 2008, the book value of the fixed asset was RMB4,585 thousand.) However, the company contested the results and requested for a retrial. The case is still pending. As such, no provisions have been reflected in the financial statement.
- E. As of December 31, 2008, the medium-term loan facilities granted by the financial institutions with the resolution from the Board of Directors to finance the Company's purchase of new containers and general working capital requirement amounted to \$20,304,897 and the unutilized credits was \$4,867,507.
- F. As of December 31, 2008, details of the loading and discharging equipment acquired to support the operations of the No. 4 and No. 5 Container terminal at Kaohsiung Harbor were as follows:

Item	Contrac	Contract Amount		ınt Paid	Amount Accrued		
Rubber-tired gantry crane	USD	5,500	USD	4,400	USD	1,100	
Electrical device of							
rubber-tired gantry crane	EUR	948	EUR	284	EUR	664	

G.As of December 31, 2008, the estimated amount of ship rental expense in the following years under long-term contracts is set forth as follows:

Year	A	mount
within 1 year	USD	197,161
1~2 years		135,734
2~3 years		68,564
3~4 years		66,198
4~5 years		65,371
over 5 years		281,601
•	USD	814,629

H. As of December 31, 2008, the estimated amounts of security service in the following years under the long-term contract that the Company entered into with ESRC was \$30,644.

I. As of December 31, 2008, the amount of guaranteed notes issued by the Company for loans borrowed was \$1,500,000.

### 8. SIGNIFICANT CATASTROPHE

None.

#### 9. SUBSEQUENT EVENTS

None.

#### 10.OTHERS

#### (1)Significant charitable contribution

For the year ended December 31, 2008, the Company donated USD 4,000 to the Association for Across the Taiwan Straits in response to Sichuan earthquake fund raising activities.

#### (2) Financial statement disclosure

Certain accounts in the 2007 financial statements were reclassified to conform to the 2008 financial statement presentation.

The following summarizes the methods and assu	mptions used in	estimating tl	ne fair value of		

#### financial instruments:

- A.The fair values of short-term financial instruments were determined using their carrying values because of the short maturities of these instruments. This method applies to cash and cash equivalents, notes and accounts receivable/payable, other financial assets, refundable deposits, restricted assets, short-term debts, short-term bills payable and guarantee deposits received.
- B. For financial assets at fair value through profit or loss and available-for-sale financial assets with quoted market price available in an active market, the fair value is determined using the quoted market price. When there is no quoted market price for reference, a substitute valuation technique is used to measure the fair value which incorporates all factors that market participants would consider in making estimations and assumptions for setting a price and wherein such information is available to the Group.
- C.Financial assets carried at cost, consists of unlisted stocks or those not actively traded in an active market. Their fair value could not be measured reliably; hence, such instruments are measured at cost in compliance with applicable accounting standards. For bond investments with no active market, the carrying value is used to estimate its fair value when there is no market price for reference.
- D. Long-term accounts receivable are interest-bearing financial assets with floating interest rate, thus the carrying value is close to the fair value.
- E. Fair values of long-term loans are estimated based on the present values of future cash flows. For bank loans associated with floating interest rate, the carrying value represents its fair value.
- F. Fair values of corporate bonds payable are determined as the quoted market prices when available. When the quoted market prices are not available, fair values are estimated based on financial information or other information.
- G. Financial liabilities carried at costs are equity-linked instruments which are to be settled with equity instruments with no quoted market prices or with fair values that can not be reliably measured. Such instruments are measured at costs in accordance to the rules stipulated in the "Guidelines for Preparation of Financial Statements by Securities Issuers".
- H. The fair values of derivative financial instruments, except for that mentioned in paragraph G, are determined based on the estimated amounts to be received or paid if the Group terminates the contract on the balance sheet date. Unrealized gains or losses arising from unsettled contracts are generally included. Ask price from counterparties are available for reference in setting fair values for the Group's derivative financial instruments.

#### (4)Information on significant gain/loss and equity items on financial instruments

- A. For the years ended December 31, 2008 and 2007, total interest income except for that from financial assets and liabilities at fair value through profit or loss amounted to \$751,472 and \$450,444; whereas the total interest expense amounted to \$467,426 and \$403,320, respectively.
- B. For the years ended December 31, 2008 and 2007, the adjustment to shareholders' equity resulting from available-for-sale financial assets was debit \$353,561 and credit \$160,282; whereas the total loss or gain deducted from the adjustment of shareholders' equity resulting

from available-for-sale financial assets was \$23,599 and \$12,549, respectively.

#### (5)Information on interest rate risk positions

As of December 31, 2008 and 2007, the financial assets with fair value risk due to the change of interest rate amounted to \$5,340 and \$18,161; whereas the financial liabilities with fair value risk due to the change of interest rate amounted to \$358,070 and \$9,354, respectively. The financial assets with cash flow risk due to the change of interest rate amounted to \$4,431,512 and \$18,576,113; whereas the financial liabilities with cash flow risk due to the change of interest rate amounted to \$33,220,218 and 21,862,721, respectively.

#### (6) Risk policy and hedging strategy

The financial instruments held by the Group, other than derivative instruments, are composed of cash and cash equivalents, stocks, funds, bank loan, and corporate bonds. Such financial instruments are held for maintaining adequate operating capital. The Group also held other financial assets and liabilities, such as accounts receivable and payable generated from operating activities.

The transactions associated with derivative instruments mainly include interest rate swap and oil swap. The primary objective is to avoid the interest rate risk and fuel price variation arising from operating and financing activities.

The primary risks of financial instruments are cash flow risk associated with interest rate fluctuations, exchange rate risk, credit risk, and liquidity risk. The risk management policies are set forth below:

#### Cash flow risk associated with interest rate fluctuations

The Group's major exposure to cash flow risk associated with interest rate variations come primarily from long-term financing with floating interest. The Group adopts a combination of fixed and floating interest rate loans to manage such interest rate risks. In addition, the Group also engages in interest rate swaps to minimize cost of borrowings.

As of December 31, 2008, the carrying values of the Group's financial instruments exposed to interest rate are summarized in the order of maturity as follows:

	T. 1	•

	(	`	32,164)	•	')	`	200)	`	, /	(	4,939,442)

The interest of financial instruments associated with the floating interest rates is remeasured within 1 year period and the interest for financial instruments associated with the fixed interest rate is fixed to maturity. The financial instruments not included in the preceding table are not subject to interest payments and thus, do not have inherent interest rate risk.

### Exchange rate risk

Although the Group is exposed to exchange rate risk, the Group has stable cash inflows denominated in foreign currencies for meeting cash outflows denominated in foreign currency due to the fact that the Group operates in international transportation industry. In order to minimize exchange rate risk, the Group also engages in activities, such as borrowing of US dollar loans, etc.

#### Credit risk

The Group only deals with third parties with good credit standings. In compliance with the Group's policies, strict credit assessment is to be performed by the Group prior to providing credit to customers. The occurrence of bad debts is also minimized by the Group's practices in continuously monitoring and assessing collections on notes and accounts receivables and making adjustments to the credit terms granted for each customer based on the conclusion drawn from such assessment. Moreover, the Group is restricted from engaging in credit trading with other business units operating under other functional currencies unless permission from the highest instruction unit has been received.

Other financial instruments held by the Group are subject to credit risk arising from the failure of counterparty to settle their contractual obligations as and when they fall due. Since the Group only deals with third parties with qualifying credit standings, no collateral is required by the Group which also represents that the maximum credit exposure amount equals to the relative carrying value. The maximum credit exposure amount for various financial assets held by the Group is analyzed as follows:

	December 31, 2008								
			Maximum credit exposure amount						
Financial instruments		Book value							
Financial assets at fair value through

Credit risk refers to the risk of counterparty's failure to settle contractual obligations as and when they fall due. The credit risk presented in the preceding table is the positive net amount of all contracts with positive fair values at the balance sheet date. The credit risk amount presented is the loss that may be incurred by the Group in the case of counterparty's default. Since the counterparties of the Group are business enterprises or financial institutions with good credit rating, the potential credit risk event is remote. In addition, since the Group is not concentrated in transactions with one individual or counterparty, no concentration of credit risk is evident. Liquity risk

The Group achieves the objectives of effective use of capital and stabilization of capital by adjusting capital through the use of cash and cash equivalents, financial instruments held for trading, bank loans and corporate bonds, etc. The operating capital of the Group is sufficient in meeting capital on demand; therefore, no significant liquidity risk is expected.

#### (7) Hedging activity

#### Cash flow hedge

The Company holds interest rate swap contracts to avoid the risk resulting from variation between floating and fixed rate. The effectiveness of hedging was within a range of 80% to 125%.

"0" denotes issuer

The investee is numbered from "1" in sequence by different company.

Note 2: Nature if the counterparty's relationship with the Company or its subsidiaries

"1" denotes the endorsements/guarantees provided to the companies which have transactions with the Company or its subsidiaries.

"2" denotes the endorsements/guarantees provided to the subsidiaries of which the Company holds more than 50% of the common stock.

"3" denotes the endorsements/guarantees provided to the investees of which the Company together with its subsidiaries hold more than 50% of the common stock.

"4" denotes the endorsements/guarantees provided to the companies which directly or indirectly hold more than 50% of the Company's common stock.

"5" denotes the endorsements/guarantees provided pursuant to construction contracts.

"6" denotes the endorsements/guarantees provided to joint venture companies based on the Company's or its subsidiaries proportionate equity interest in the Company.

Note 3: According to the Company's credit policy, the total amount of endorsements or guarantees provided by the Company or its subsidiaries should not exceeded 250% of the net worth states in the latest financial statements.

The calculation is as follows:

The Company: NT\$65,291,138 \*250%=NT\$163,227,845

#### Note 1:Nature of loans extended

- "1" denotes the loans extended to the companies which have transactions with the Company or its subsidiaries.
- "2" denotes the loans extended to the companies which require short-term financing.

Note 2: The explanation of the equation of the limits and amounts is required and set forth as follows:

1. According to the Company's credit policy, the total amount of loans granted to a single company should not exceed 20% of the net worth stated in the latest financial statements.

The calculation is as follows:

The Company:NTD65,291,138 \*20%=NTD13,058,228

2. According to the Company's credit policy, the total amount of loans granted by the Company or its subsidiaries should not exceed 40% of the net worth stated in the latest financial statements.

The calculation is as follows:

NTD65,291,138 \*40%=NTD26,116,455

Note 3: When edited the consolidated financial statements, the transaction had been written off.

#### 12.SEGMENT INFORMATION

### (1)Financial information by industries

As the Group is engaged in international marine transportation, every vessel sails between the major harbors in the world. Therefore, no export sales are reported.

### (2) Financial information by geographical areas

The Group is engaged in international marine transportation; however, its foreign-ports formalities regarding arrival and departure of ships, cargo stevedoring and forwarding, collection of freight, and payment of expenses incurred in foreign ports are handled by overseas shipping agents. Therefore, no disclosure is required.

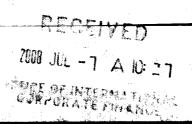

### (3)Export information

The Group is engaged in only one single industry, i.e. international marine transportation and shipping agency. Therefore, no disclosure is required.

## (4)Information on major customers

The Group provides services to customers all over the world. No single customer of the Group accounts for more than 10% of the Group's operating revenues.

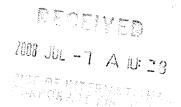

## **EVERGREEN MARINE CORPORATION**

FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS

DECEMBER 31, 2008 AND 2007

## **EVERGREEN MARINE CORPORATION**

FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS

DECEMBER 31, 2008 AND 2007

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Evergreen Marine Corporation

We have audited the accompanying balance sheets of Evergreen Marine Corporation (the "Company") as of December 31, 2008 and 2007, and the related statements of income, of changes in stockholders' equity, and of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. The financial statements of certain investee companies accounted for under the equity method as of and for the years ended December 31, 2008 and 2007, were audited by other auditors, whose reports have been furnished to us. Our opinion, insofar as it relates to the amounts included in the financial statements and information disclosed in Note 11 relating to these long-term equity investments, is based solely on the reports of the other auditors. Long-term equity investments in these investee companies amounted to 26,296,891 and 26,751,437 thousand New Taiwan dollars, constituting 27.91% and 29.41% of the total assets as of December 31, 2008 and 2007, and the related investment income was 270,232 and 1,902,884 thousand New Taiwan dollars, constituting 39.29% and 16.32% of the net income before tax for the years then ended, respectively.

We conducted our audits in accordance with the "Rules Governing the Examination of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Evergreen Marine Corporation as of December 31, 2008 and 2007, and the results of its operations and its cash flows for the years then ended in conformity with the "Rules Governing Preparation of Financial Statements by Securities Issuers", "Business Entity Accounting Law", "Regulations on Business Entity Accounting Handling" and generally accepted accounting principles in the Republic of China.

We have also audited the consolidated financial statements of Evergreen Marine Corporation and its subsidiaries as of and for the years ended December 31, 2008 and 2007, on which we have issued an unqualified opinion with explanatory paragraph thereon.

PricewaterhouseCoopers April 20, 2009 Taipei, Taiwan Republic of China

The accompanying financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

# EVERGREEN MARINE CORPORATION NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2008 AND 2007

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS/FOREIGN CURRENCY EXCEPT AS OTHERWISE INDICATED)

# 1.HISTORY AND ORGANIZATION

Established on September 25, 1968, Evergreen Marine Corporation (the "Company") had authorized capital of \$36,000,000 and issued capital of \$30,609,360 as of December 31, 2008 with a par value of \$10 (dollars) per share. The Company is mainly engaged in domestic and international marine transportation, shipping agency services, and the distribution of containers. The Company was approved by the Securities and Futures Commission (SFC), Ministry of Finance (MOF) (currently known as the Securities and Futures Bureau (SFB), Financial Supervisory Commission, Executive Yuan) to be a public company on November 2, 1982 and was further approved by the SFC to be a listed company on July 6, 1987. The Company's shares have been publicly traded on the Taiwan Stock Exchange since September 21, 1987. The Company had 1,374 employees as of December 31, 2008.

#### 2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements are prepared in conformity with the "Rules Governing Preparation of Financial Statements by Securities Issuers", "Business Entity Accounting Law", "Regulations on Business Entity Accounting Handling", and accounting principles generally accepted in the Republic of China. The Company's significant accounting polices are summarized below:

## (1) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - a) Assets arising from operating activities that are expected to be realized or consumed, or are intended to be sold within the normal operating cycle;
  - b) Assets held mainly for trading purposes;
  - c) Assets that are expected to be realized within twelve months from the balance sheet date;
  - d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - a) Liabilities arising from operating activities that are expected to be paid off within the normal operating cycle;

- b) Liabilities arising mainly from trading activities;
- c) Liabilities that are to be paid off within twelve months from the balance sheet date;
- d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date.
- C. Financial liabilities that expire within 12 months from the balance sheet date which meet the following conditions are classified as non-current liabilities:
  - a) The original contract term exceeds one year.
  - b) Intended for long-term refinancing.
  - c) Have completed long-term refinancing and extended the period of liabilities before the balance sheet date, or have the intention to refinance or extend the period of liabilities by one year after balance sheet date.

## (2)Foreign currency translations

- A. The Company maintains its accounts in New Taiwan dollars. Transactions denominated in foreign currencies are translated into New Taiwan dollars at the spot exchange rates prevailing at the transaction dates. Exchange gains or losses due to the difference between the exchange rate on the transaction date and the exchange rate on the date of actual receipt and payment are recognized in current year's profit or loss.
- B. Receivables, other monetary assets and liabilities denominated in foreign currencies are translated at the spot exchange rates prevailing at the balance sheet date. Exchange gains or losses are recognized in profit or loss.
- C. When a gain or loss on a non-monetary item is recognized directly in equity, any exchange component of that gain or loss shall be recognized directly in equity. Conversely, when a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss shall be recognized in profit or loss. However, non-monetary items that are measured on a historical cost basis are translated using the exchange rate at the date of the transaction.

## (3) Translation of financial statements of foreign subsidiaries

Assets and liabilities of foreign subsidiaries are translated into New Taiwan dollars using the exchange rates at the balance sheet date. Equity accounts are translated at historical rates except for beginning retained earnings, which are carried forward from prior year's balance. Dividends are translated at the rates prevailing at the date of declaration. Profit and loss accounts are translated at weighted-average rates of the year. The resulting translation differences are included in "cumulative translation adjustments" under stockholders' equity.

## (4)Cash and cash equivalents

Cash and cash equivalents include cash on hand and in banks and other short-term highly liquid

investments which are readily convertible to known amount of cash and which are subject to insignificant risk of changes in value resulting from fluctuations in interest rates.

## (5) Financial assets and financial liabilities at fair value through profit or loss

- A. Financial assets and financial liabilities at fair value through profit or loss are recognized and derecognized using trade date accounting and are recognized initially at fair value.
- B. These financial instruments are subsequently remeasured and stated at fair value, and the gain or loss is recognized in profit or loss. The fair value of listed stocks and OTC stocks and closed-end mutual funds is based on latest quoted fair prices of the accounting period. The fair value of open-end and balanced mutual funds is based on the net asset value at the balance sheet date.
- C. When a derivative is an ineffective hedging instrument, it is initially recognized at fair value on the date a derivative contract is entered into and is subsequently remeasured at its fair value. If a derivative is a non-option derivative, the fair value initially recognized is zero.

## (6) Available-for-sale financial assets

- A. Available-for-sale financial assets are recognized and derecognized using trade date accounting and are initially stated at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. The financial assets are remeasured and stated at fair value, and the gain or loss is recognized in equity, until the financial asset is derecognized, at which time the cumulative gain or loss previously recognized in equity shall be recognized in profit or loss. The fair value of listed stocks and OTC stocks and closed-end mutual funds are based on latest quoted fair prices of the accounting period. The fair values of open-end and balanced mutual funds are based on the net asset value at the balance sheet date.
- C. If there is any objective evidence that the financial asset is impaired, the cumulative loss that has been recognized directly in equity shall be transferred from equity to profit or loss. When the fair value of an equity instrument subsequently increases, impairment losses recognized previously in profit or loss shall not be reversed. When the fair value of a debt instrument subsequently increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss recognized in profit or loss.

#### (7)Investment in bonds without active markets

- A. Investment in bonds without active markets is recognized and derecognized using trade date accounting and is stated initially at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. This financial asset is carried at amortized cost.

C. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. If, subsequently, the fair value of asset increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the previously recognized impairment loss shall be reversed to the extent of the amount of the amortized cost that would have been recognized at the date the impairment is reversed.

#### (8) Financial assets and financial liabilities carried at cost

- A. Investment in unquoted equity instruments is recognized or derecognized using trade date accounting and is stated initially at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. Such impairment loss shall not be reversed when the fair value of the asset subsequently increases.

## (9) Derivative financial instruments for hedging

Derivatives are initially recognized at fair value on the date a contract is entered into and are subsequently remeasured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument and the nature of the hedged item.

## A. Fair value hedges:

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognized in profit or loss. Changes in the fair value of the hedged asset or liability that are attributable to the hedged item are recognized in profit or loss as an adjustment to the carrying amount of the hedged item.

## B. Cash flow hedges:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in equity. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss.

- a) If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains or losses that were recognized directly in equity are transferred to profit or loss in the same period or periods when the hedged item affects profit or loss.
- b) If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability the associated gains and losses that were recognized directly in equity are transferred into profit or loss in the same period or periods during which the asset acquired or liability assumed affects profit or loss, However, any loss or

portion of a loss recognized directly in equity expected not to be recovered in the future is reclassified to profit or loss.

## C. Hedges of net investment in foreign operations:

Any gain or loss on the hedging instrument is recognized in equity; gains and losses accumulated in equity are recognized in profit or loss when the foreign operation is disposed.

## (10)Derecognition of financial assets and liabilities

- A. Derecognition of the whole or parts of a financial asset occurs after the contractual rights that compose the asset is expired. When the whole or parts of a financial asset is transferred and contractual rights that compose the asset are given up, the proceeds received is treated as sales. When the transfer of financial assets does not qualify as a loss of contractual rights, then such transfer of assets is recognized as secured loan. Reacquisition of such assets' rights is not recognized as derivative financial assets.
- B. Derecognition of the whole or parts of a financial liability occurs after the obligation specified in the contract binding the financial liability is discharged, cancelled or expired. On grounds of either an exchange of a financial liability for another one with its creditor based on different terms or a significant modification of the original terms, such transaction is recognized as an extinguishment of the original financial liability and a new financial liability. Any gain or loss from extinguishment of the original financial liability is recognized as gains or losses in the same period of such transaction.

# (11)Allowance of doubtful accounts

Allowance for doubtful accounts is provided according to the evaluation of the collectibility of notes and accounts receivable and other receivables, taking into account the bad debts incurred in prior years and the aging analysis of the receivables.

## (12)Ship fuel

Ship fuel is physically measured by the crew of each ship and reported back to the Head Office through telegraph for recording purposes at year-end. Valuation of inventories is based on the exchange rate prevailing at the end of the fiscal year.

## (13)Long-term equity investments accounted for under the equity method

A. Long-term equity investments in which the Company holds more than 20% of the investee company's voting shares or has the ability to exercise significant influence on the investee's operational decisions are accounted for under the equity method. The excess of the initial investment cost over the acquired net asset value of the investee attributable to goodwill is no longer amortized, effective January 1, 2006. Retrospective adjustment of the amount of goodwill amortized in previous year is not required. The excess of acquired net asset value of investee over the initial investment cost is allocated proportionately and applied as a reduction

to the book values of identifiable non-current assets, and any remaining amount of such excess after this allocation is credited to extraordinary gains. The unrealized revenue which occurred between the Company and its investee or occurred between investees in the period should be eliminated. The Company's consolidated financial statements are prepared in accordance with the SFAS No. 7 "Consolidated Financial Statements". Investee companies of which the Company holds more than 50% voting shares of an investee or the Company holds less than 50% voting shares of an investee, but has effective control over the investee are included in the consolidated financial statements.

B. Exchange differences arising from translation of financial statements of overseas investee companies accounted for under the equity method are recorded as "cumulative translation adjustments" under stockholders' equity.

# (14)Property, plant and equipment

- A. Property, plant and equipment are stated at cost. Interests incurred on the loans used to bring the assets to the condition and location necessary for their intended uses are capitalized.
- B. Major improvements and renewals are capitalized and depreciated accordingly. Maintenance and repairs are expensed as incurred.
- C. Depreciation is calculated on a straight-line basis according to the respective assets' useful lives regulated by the Ministry of Finance plus one year for salvage value.
- D. For ships and equipment that are still in use after expiration of their useful lives, depreciation is provided based on the original method and the reassessed useful life and salvage value. For other assets that are still in use after expiration of their useful lives, depreciation is provided based on the original method to the extent that the salvage value falls below \$3,000. When impairment loss is recognized, property, plant and equipment shall be depreciated over their remaining useful lives based on their carrying values adjusted for the impairment loss.

## (15)Deferred charges

Deferred charges refer to the expenses incurred for decoration, issuance of corporate bonds, computer software and cable installation. The expenses incurred for decoration are amortized on a straight-line basis over five years, expenses incurred for issuance of corporate bonds are amortized over the issuance period, expenses incurred for issuance of convertible bonds are amortized over the period from the issuance date to the expiry date of the redemption rights and the remaining are amortized over 2-3 years.

## (16)Impairment of non-financial assets

The Company recognizes impairment loss when there is indication that the recoverable amount of an asset is less than its carrying amount. The recoverable amount is the higher of the fair value less costs to sell and value in use. When the impairment no longer exists, the impairment loss

recognized in prior years shall be recovered.

## (17)Convertible bonds

Bonds payable issued before December 31, 2005 are accounted for as follows:

- A. Convertible bonds are stated at their issuance price. The excess of the redemption price over the face value of the convertible bonds is amortized using the interest method over the redemption period.
- B. When bonds are converted, the par value of the bonds is credited to common stock and any excess is credited to capital reserve. No gain or loss is recognized on bond conversion.
- C. Expenditures incurred on issuance of convertible bonds are classified as deferred assets and amortized over the life of the bonds. In cases where the bonds are converted or redeemed before the maturity date, the issuance expenditures are expensed in proportion to the amount of bonds converted or redeemed.
- D. Where bonds are not redeemed during the redemption period, the interest on redemption is amortized under the interest method over the remaining life of the bonds. If the fair value of the underlying shares at the expiry date of the redemption option exceeds the redemption price, the interest on redemption is reclassified to capital reserve.

#### (18)Pension

Under the defined benefit pension plan, net periodic pension costs are recognized in accordance with the actuarial calculations. Net periodic pension costs include service cost, interest cost, expected return on plan assets, amortization of unrecognized net transition obligation, and gains or losses on plan assets. Unrecognized net transition obligation is amortized on a straight-line basis over 15 years. Under the defined contribution pension plan, net periodic pension costs are recognized as incurred.

## (19)Income tax

- A. Inter-period and intra-period income tax allocation methods are employed. Provision for income tax includes deferred income tax resulting from temporary differences, investment tax credits, and loss carryforward. Valuation allowance on deferred tax assets is provided to the extent that it is more likely than not that the tax benefit will not be realized. Over or under provision of prior years' income tax liabilities is included in current year's income tax.
- B. Investment tax credits arising from expenditures incurred on acquisitions of equipment or technology, research and development, employees' training, and equity investments are recognized in the year the related expenditures are incurred.
- C. A 10% surtax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year when the stockholders resolve to retain the earnings.

## (20) Employees' bonuses and directors' and supervisors' remuneration

Effective January 1, 2008, pursuant to EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007, "Accounting for Employees' Bonuses and Directors' and Supervisors' Remuneration", the costs of employees' bonuses and directors' and supervisors' remuneration are accounted for as expenses and liabilities, provided that such a recognition is required under legal or constructive obligation and those amounts can be estimated reasonably. However, if the accrued amounts for employees' bonuses and directors' and supervisors' remuneration are significantly different from the actual distributed amounts resolved by the stockholders at their annual stockholders' meeting subsequently, the differences shall be recognized as gain or loss in the following year. In addition, according to EITF97-127 of the Accounting Research and Development Foundation, R.O.C., dated March 31, 2008, "Criteria for Listed Companies in Calculating the Number of Shares of Employees' Stock Bonus", the Company calculates the number of shares of employees' stock bonus based on the closing price of the Company's common stock at the previous day of the stockholders' meeting held in the year following the financial reporting year, and after taking into account the effects of ex-rights and ex-dividends.

# (21) Revenue, cost, and expense recognition

Revenues are recognized when the earning process is substantially completed and are realized or realizable. Costs and expenses are recognized as incurred.

## (22)Basic (diluted) earnings per share

Basic earnings per share is calculated based on the net income (loss) attributed to common stockholders and the weighted-average number of common shares outstanding during the period. Any capital increase (reduction) through cash infusion (withdrawal), treasury stock transactions or other factors that would cause a change in the number of outstanding shares are incorporated in the calculation on a weighted-average basis according to the circulation period. Adjustments are made retroactively to the weighted-average number of outstanding shares if there is any increase (decrease) in the number of outstanding shares which does not result in changes in the stockholders' percentage of equity interest. If the effective dates of the aforementioned events fall between the balance sheet date and the issue date of the financial statements, retroactive adjustments are also required. For the purpose of calculating diluted earnings per share, it is assumed that the convertible bonds are converted into the common stock on the date of issuance of the bonds, and the weighted-average number of outstanding shares is adjusted for the dilutive effect of the convertible bonds.

## (23)Use of estimates

A. The preparation of financial statements in conformity with generally accepted accounting

- principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those assumptions and estimates.
- B. Accrued expenses are recorded at the amounts stated in the original supporting documents. Foreign port charges without supporting documents are estimated based on past records and period-end sailing schedules. Differences between the expenses actually incurred in the following year and the estimated accrued expenses are credited or charged to operating costs or expenses in the following year.

## 3. CHANGES IN ACCOUNTING PRINCIPLES

- A.Effective January 1, 2007, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 37, "Accounting for Intangible Assets". Such change in accounting principle had no effect on net income, EPS, nor total assets as of and for the year ended December 31, 2008.
- B.Effective January 1, 2008, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 39, "Accounting for Share-based Payment". Such change in accounting principle had no effect on net income, EPS, nor total assets as of and for the year ended December 31, 2008.
- C.Effective January 1, 2008, the Company adopted EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007. Such change in accounting principle had no effect on net income nor EPS as of and for the year ended December 31, 2008.

	\$ 2,475,680	\$ 2,777,082

# A. Agency accounts

These accounts occur when foreign agencies, based on the agreement with the Company, deal with foreign port formalities regarding arrival and departure of ships, cargo loading, discharging, and forwarding, collection of freight, and payment of expenses incurred in the foreign port.

## B. Agency reciprocal accounts

Temporary accounts between the Company and Evergreen International S.A., Gaining Enterprise S.A., Greencompass Marine S.A., Italia Marittima S.P.A., Evergreen Marine (UK) Limited, and Evergreen Marine (Hong Kong) LTD. These accounts occur as these ship owners incur foreign port expenses and related rental expenses.

	Decem	iber 31, 2008	Decen	iber 31, 2007
Unlisted stocks	\$	1,534,441	\$	1,536,146

- A. The Company's investment in unlisted securities was measured at cost since its fair value cannot be measured reliably.
- B. In April 2007, Taishin International Telecommunication Co., Ltd. purchased publicly-traded shares of Taiwan Fixed Network Co. Ltd. The Company sold all its shares of Taiwan Fixed Network based on the purchase price of \$8.3 (in dollars) per share. The Company's investment cost was \$700,000, and the purchase price was \$581,000. As a result, a realized impairment loss of \$119,000 was recognized for the year ended December 31, 2007.
- C. In August 2008 and April 2007, Power World Fund Inc. (PWF) reduced its capital at a conversion rate of 11.67% and 18.93%, respectively. The amount returned to the stockholders was \$10 (in dollars) par value per share. As a result of the capital reduction, the proceeds received by the Company based on its proportionate equity interest in PWF were \$1,705 and \$3,409, respectively, and the carrying amount of the Company's investment in PWF was written down by \$1,705 and \$3,409, respectively. No gain or loss was incurred.
- D. After the issuance of common stock of GRETEC Construction Corp., on December 24, 2007, the Company's Board of Directors resolved to purchase 3,500 thousand shares at \$12.5 dollars per share, resulting in a total investment of \$43,750, which is recorded under financial assets carried at cost.

## (10)Investment in bonds without active markets

				Decen	iber 3	1,
Item	Period	Coupon rate	2	008		2007
Covertible Bond - Tuntex (Thailand)	03.10.05~	0%	\$	-	\$	10,201
Public Company Limited	03.10.13					
Add: Unrealized exchange gain						1,956
			\$	_	\$	12,157

- A.In 1997, the Company purchased the convertible bonds of US\$180 issued by Tuntex (Thailand) Public Company Limited (TUNTEX). As Tuntex encountered financial difficulties, it defaulted at maturity of the bonds. Consequently, the Company fully recognized the losses on the bonds in 2001. Tuntex subsequently filed an application to the court for corporate restructuring and reached a consensus with the creditors to reissue the abovementioned bonds. The convertible bonds allocated to the Company were recorded at face value of THB15,737 (NT\$12,581), and the Company recognized income of \$12,581 under "non-operating income others" for the year ended December 31, 2005.
- B. Effective January 1, 2006, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 34, "Accounting for Financial instruments" and the convertible bonds were reclassified as "Investments in bonds without active markets non-current". The book value, adjusted by spot exchange rate, was amortized by cost method, and the difference between the value and the original cost unrealized loss (after tax) of \$367 is recognized as a reduction of 2006's shareholders' equity.

- C. For stock conversion right of the above convertible bonds, please refer to Note 4 (20).
- D. As of December 31, 2008, as a creditor of TUNTEX, the Company recognized distributed disposal loss of \$12,451, after the liquidation of TUNTEX in September, 2008.

# (11)Long-term equity investments accounted for under the equity method

A.Details of long-term equity investments accounted for under the equity method are set forth below:

	December 31, 2008	Carrying amount			
Investee company	Percentage of ownership	December 31, 2008	December 31, 2007

- A. All the aforementioned ships and equipment have been insured based on the market value of each vessel or the requirement of the creditor banks. As of December 31, 2008 and 2007, the insurance coverage amounted to USD107,000 and USD101,000, respectively. In addition, the ships were covered by the protection and indemnity insurance with GARD. The indemnity amounts were unlimited except for oil pollution which was limited to both USD 8 billion as of December 31, 2008 and 2007.
- B. The Company's loading/discharging equipment was covered by the general insurance for

- construction machinery with insurance coverage amounting to \$1,815,591 and \$2,001,831 as of December 31, 2008 and 2007, respectively. The fire and car insurance coverage for the office equipment was \$1,310,673 and \$1,335,715 as of December 31, 2008 and 2007, respectively. Container facilities were insured with full coverage amounting to USD299,765 and USD272,146 as of December 31, 2008 and 2007, respectively.
- C. The Company entered into a construction agreement with Kaohsiung Harbor Bureau to complete the extension project of Pier No. 116 of Kaohsiung Harbor. The Company is entitled to use the pier free of charge for 16 years commencing from the date of completion. Upon expiration of the 16-year period, the Company was obliged to return the pier to the Bureau but had the privilege to lease the pier. The construction project was reclassified to dock facilities upon completion on January 1, 1992. The Company leased the pier on a ten-year contract effective March 1, 2008 and amortized it on a straight-line basis over 10 years with the amortization recognized as loading/discharging expenses.
- D. The Company entered into a construction agreement with Kaohsiung Harbor Bureau to complete the extension project of Piers No. 79~81 of Kaohsiung Harbor. The Company is entitled to use the piers free of charge for 10 years commencing from the date of completion. Upon expiration of the 10-year period, the Company was obliged to return the piers to the Bureau but had the privilege to lease the piers. The construction project was reclassified to dock facilities upon completion in the beginning of 2000, and is amortized on a straight-line basis over 10 years with the amortization recognized as loading/discharging expenses.

## (20) Financial liabilities carried at cost - non-current

			December, 31			
	Item	Period	2008	2008		2007
	Convertible bonds -					
	Tuntex (Thailand) Public					
Stock conversion right	Company Limited	03.10.13	\$		\$	9,004

The above financial liability is the embedded stock conversion right obtained by the Company through acquisition of convertible corporate bonds issued by Tuntex (Thailand) Public Company Limited (TUNTEX) during the first quarter of 2005. As stated on the terms of the agreement, TUNTEX can choose either to pay back by cash at face value of corporate bonds (THB15,737) or convert to stock on the maturity date. Effective January 1, 2006, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 34, "Accounting for Financial Instruments". The convertible bonds were discounted at effective interest rate at its acquisition. The unrealized loss of THB 11,263 (NTD 9,004), after tax, was recognized as a deduction of 2006's shareholders' equity. Thereafter, the unrealized loss is evaluated by cost method using historical exchange rate.

## (21)Corporate bonds payable

	Decer	nber 31, 2008	December 31, 2007		
Secured corporate bonds	\$	-	\$	1,500,000	
Unsecured corporate bonds		232,100		797,000	
Add: Accrued interest compensation				4,964	
		232,100		2,301,964	
Less: Current portion	(	232,100)	(	1,500,000)	
	\$	•	\$	801,964	

- A. On January 12, 2004, the Company issued its first unsecured domestic convertible bonds (referred herein as the "Bonds") at face value, totaling \$4 billion. The major terms of the issuance are set forth below:
  - a)Period: 5 years (January 12, 2004 to January 11, 2009)
  - b)Coupon rate: 0% per annum
  - c)Principal repayment and interest payment

Unless the Bonds are redeemed, repurchased, resold, converted or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Bonds.

## d)Collaterals

The Bonds are unsecured. However, if the Company subsequently issues other convertible bonds secured with collaterals, the rights of the bondholders to claim their credits and the collaterals are set at the same rank as the holders of the convertible bonds issued subsequently.

## e)Redemption at the Company's option

- (a) During the period from 3 months after the issuance of the Bonds to 40 days before the maturity of the Bonds, if the closing price of the Company's common stock at the Taiwan Stock Exchange is equal to or more than 50% of the conversion price for a period of 30 consecutive trading days, the Company may redeem 100% of the outstanding bonds in cash at the redemption price calculated based on the predetermined yield rate on redemption within 30 trading days after the abovementioned 30 consecutive trading days. The yield rate on redemption is 0.20% per annum during the period from 3 months to 3 years after the Bonds' issuance. During the period from 3 years after the Bonds' issuance to 40 days before the maturity of the Bonds, the Bonds are redeemable at their face value.
- (b) During the period from 3 months after the issuance of the Bonds to 40 days before the maturity of the Bonds, if the total amount of the Bonds outstanding after the conversion by the bondholders is less than \$400 million (10% of the total issued amount), the Company may redeem the outstanding bonds in cash in accordance with the terms stated in Paragraph (a) above.
- (c) When the Company issues its redemption notice, if the bondholders do not reply before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the conversion price in effect at the expiration of the notice period.

## f)Redemption at the bondholders' option

During the period from 30 days before the 3-year maturity of the Bonds to the date of maturity, the bondholders may require the Company to redeem their bonds in cash at the face value plus interest compensation (i.e. 100.60% of the face value with a yield rate of 0.20% per annum).

### g)Terms of conversion

### (a) Conversion period

The bondholders may convert the Bonds into the Company's common stock during the period from 3 months after the Bonds are issued to 10 days before the maturity of the Bonds.

The bondholders are prohibited from exercising their conversion right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

# (b) Conversion price

The conversion price is the lowest of the three average closing prices of the Company's

common stock during the 10, 15, and 20 trading days before October 3, 2003 multiplied by 115%. If any cash or stock dividends are distributed before October 3, 2003, the closing price used in the computation of the conversion price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the conversion price is set to the date on which the Bonds are converted, the conversion price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The conversion price at the issuance of the Bonds was set at \$28.60 (in dollars). As of the date of the issuance of this financial statement, the adjusted conversion price was \$21.65 (in dollars).

## h)Others

(a) Entitlement to cash dividends

The bondholders who request to convert the Bonds on a date which is more than 3 trading days before the announcement of cash dividends are entitled to the cash dividends resolved by the stockholders in the current year.

The bondholders who request to convert the Bonds 3 trading days before the announcement of cash dividends or later are not entitled to the cash dividends resolved by the stockholders in the current year, but are entitled to the cash dividends resolved by the stockholders in the following year.

- (b) The affiliated companies of the Company may subscribe the Bonds, but do not have the right to convert the Bonds into the Company's common stock.
- B. On September 6, 2004, the Company issued its second unsecured domestic convertible bonds (referred herein as the "Second Bonds") at face value, totaling \$4.5 billion. The major terms of the issuance are set forth below:

a)Period: 5 years (September 6, 2004 to September 5, 2009)

b)Coupon rate: 0% per annum

c)Principal repayment and interest payment

Unless the Second Bonds are redeemed, repurchased, resold, converted or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Second Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Second Bonds.

## d)Collaterals

The Second Bonds are unsecured. However, if the Company subsequently issues other convertible bonds secured with collaterals, the rights of the holders of the Second Bonds to claim their credits and the collaterals are set at the same rank as the holders of the convertible bonds issued subsequently.

## e)Redemption at the Company's option

- (a) During the period from 3 months after the Second Bonds are issued to 40 days before the maturity of the Second Bonds, if the closing price of the Company's common stock at the Taiwan Stock Exchange is equal to or more than 50% of the conversion price for a period of 30 consecutive trading days, the Company may redeem the outstanding bonds in cash at the face value of the Second Bonds within 30 trading days after the abovementioned 30 consecutive trading days.
- (b) During the period from 3 months after the Second Bonds are issued to 40 days before the maturity of the Second Bonds, if the total amount of the Second Bonds outstanding after the conversion by the bondholders is less than \$450 million (10% of the total issued amount), the Company may redeem the outstanding bonds at their face value any time during the 40 days before the maturity of the Second Bonds.
- (c) When the Company issues its redemption notice, if the bondholders do not reply before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the conversion price in effect at the expiration of the notice period.

# f)Redemption at the bondholders' option

During the period from 30 days before the 3.5-year maturity of the Second Bonds to the date of maturity, the bondholders may require the Company to redeem their bonds in cash at the face value.

## g)Terms of conversion

## (a) Conversion period

The bondholders may convert the Second Bonds into the Company's common stock during the period from 1 month after the Second Bonds are issued to 10 days before the maturity of the Second Bonds.

The bondholders are prohibited from exercising their conversion right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

#### (b) Conversion price

The conversion price can be any of the three average closing prices of the Company's common stock during the 1, 3, and 5 trading days before August 24, 2004 multiplied by 103%. If any cash or stock dividends are distributed before August 24, 2004, the closing price used in the computation of the conversion price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the conversion price is set to the date on

which the Second Bonds are converted, the conversion price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The conversion price at the issuance of the Second Bonds was set at \$28.50 (in dollars). As of the date of the issuance of this financial statement, the adjusted conversion price was \$18.07 (in dollars).

#### h)Entitlement to cash dividends

The bondholders who request to convert the Second Bonds during the period from January 1 of the current year to any date which is more than 3 trading days before the announcement of cash or stock dividends are entitled to the cash or stock dividends resolved by the stockholders in the current year. Conversion of the Second Bonds is prohibited during the period from 3 trading days before the announcement of cash or stock dividends to the ex-dividend date.

The bondholders who request to convert the Second Bonds during the period from the date following the ex-dividend date to December 31 of the current year are not entitled to the cash or stock dividends resolved by the stockholders in the current year, but are entitled to the cash or stock dividends resolved by the stockholders in the following year.

## (22)Long-term loans

	Dece	December 31, 2007

Please refer to Note 6 for details of the collaterals pledged for the above long-term loans.

### (23)Pension

A. In accordance with the Labor Pension Act ("the Act"), effective July 1, 2005, which adopted a defined contribution scheme, employees of the Company may choose to be subject to either the Act, maintaining their seniority before the enforcement of the Act, or the pension mechanism of the Labor Standard Law. Under the defined benefit plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 9.6% of the employees' monthly salaries

and wages to the retirement fund deposited with Department of Trust of Bank of Taiwan under the name of Labor Pension Fund Supervisory Committee.

# a)Actuarial assumptions

		2008 \$ 38,410 \$ 40,577 ( 17,335) ( 20,077 1,607 27,163				

B. Effective July 1, 2005, the Company established a funded defined contribution plan (the "New Plan") under the Labor Pension Act ("the Act"). Employees have the option to be covered under the New Plan. Under the New Plan, the Company contributes monthly an amount based on 6%

of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits are to be paid monthly or in lump sum upon termination of employment.

C. The pension costs under the defined benefit plan and the defined contribution plan for the years ended December 31, 2008 and 2007 were \$135,903 and \$140,766, respectively.

## (24)Capital stock

- A. As of December 31, 2008 and 2007, the Company's authorized capital was \$36,000,000, and the paid-in capital was \$30,609,390 and \$30,338,695, respectively, divided into 3,060,939 thousand and 3,033,870 thousand shares of common stocks, respectively, with a par value of \$10 per share.
- B. Details of the common stock converted from the unsecured domestic convertible bonds issued by the Company for the years ended December 31, 2008 and 2007 are set forth below:

	For the years ended December 31,						
	20	800		2007			
	No. of Shares			No. of Shares			
	(in 000's)		Amount	(in 000's)		Amount	
First unsecured							
convertible bonds	19,647	\$	196,475	45,899	\$	458,990	
Second unsecured							
convertible bonds	7,422		74,220	72,041		720,412	
Total	27,069	\$	270,695	117,940	\$	1,179,402	

## (25)Capital surplus

The Securities and Exchange Act requires that capital reserve shall be exclusively used to cover accumulated deficits or to increase capital and shall not be used for any other purpose. However, capital reserve arising from paid-in capital in excess of par value on issuance of common stock and donations can be capitalized once a year, provided that the Company has no accumulated deficits and the amount to be capitalized does not exceed 10% of the paid-in capital.

## (26) Appropriation of retained earnings and dividend policy

A. On June 23, 2006, the Company's Shareholders' Meeting resolved to amend the Company's Articles of Incorporation on dividends and distribution of earnings effective 2006. The newly revised policies are as follows:

According to Article 26 of the Company's Articles of Incorporation, if there is any profit for a fiscal year, the Company shall first make provision for income tax, and cover prior years' losses, then appropriate 10% of the residual amount as legal reserve. Dividends shall be proposed by the Board of Directors and resolved by the stockholders. Bonuses paid to employees shall be at least 0.5% of the total distributed amount and the remuneration paid to the directors and supervisors shall not exceed 5% of the total distributed amount. The

Company is currently at the stable growth stage. In order to facilitate future expansion plans, dividends to stockholders are distributed mutually in the form of both cash and stocks with the basic principle that the ratio of cash dividends to total stock dividends shall not be lower than 10%.

# B. Legal reserve

Pursuant to the Company Law, the Company is required to set aside 10% of its annual after-tax net income as legal reserve until the balance of such reserve equals the Company's paid-in capital. Utilization of the legal reserve is limited to offsetting deficits and capital increase. Appropriation of the legal reserve as cash dividends is prohibited.

## C. Special reserve

If there is any negative stockholders' equity item recognized by the Company, such as unrealized loss on the decline in market value of long-term equity investments and cumulative translation adjustments, the Company is required to set aside an amount equal to the amount of the negative stockholders' equity item as special reserve from the after-tax net income. If the negative stockholders' equity items are subsequently reversed, an amount not exceeding the reversed amount can be appropriated from the special reserve.

D. Appropriation of the 2007 and 2006 earnings as resolved by the stockholders on June 18, 2008 and June 27, 2007, respectively, is set forth below:

	2007			2006				
			Div	vidend per			Di	vidend per
	To	tal Amount	share	(in dollars)	Tota	al Amount	share	(in dollars)
Legal Reserve	\$	1,038,170			\$	41,158		
Cash dividends		5,201,453	\$	1.7		877,045	\$	0.3
Remuneration to directors	3							
and supervisors		45,600				7,000		
Cash bonus to employees		36,000				33,620		
	<u>\$</u>	6,321,223			\$	958,823		

Appropriation of the 2007 and 2006 earnings was calculated by the following formula. After distributing the bonus to employees and the remuneration to directors and supervisors, the after-tax basic earning per share for 2007 and 2006 decreased from \$3.53 to \$3.50 and from \$0.14 to \$0.13, respectively.

Net income, after-tax — Cash bonus to employees — Remuneration to directors and Formula: supervisors

Weighted-average number of outstanding shares (after retroactive adjustment)

2007 : (\$10,381,702 - \$36,000 - \$45,600)/ 2,943,402 thousand shares = \$3.50

2006: (\$411,580 – \$33,620 – \$7,000)/ 2,911,327 thousand shares = \$0.13

E. The information related to the appropriation of the Company's 2008 earnings as proposed by the Board of Directors and resolved by the stockholders' meeting in 2009 will be posted in the "Market Observation Post System" on the website of the Taiwan Stock Exchange.

a) Acquisitions of property, plant, and equipment

\$

	Items	 2008	 2007
ESRC	Office equipment	\$ 1,036	\$ -
EIC	Transportation equipment - vehicles	-	3,845
EHIC(M)	Transportation equipment - containers	 2,274,610	 
		\$ 2,275,646	\$ 3,845

The purchase of containers was part of the resolution by the Company's Board of Directors with EHIC (M) at a total price as shown above. Both parties agreed to settle the payment the next month after the delivery date. As of December 31, 2008, the payment was made in full.

b)Sales of property, plant and equipment

		For the years ended December 31,				
		2008		2007		
			Gain on		Gain on	
	Item	Price	disposal	Price	disposal	
TTSC	Computer equipment	\$	- \$ -	\$ 48	\$ 2	

c) On March 1, 2006, the Company's Board of Directors resolved to sell five ships to its indirect subsidiary - Greencompass Marine S.A.. Since the Company has effective control over GMS, which is accounted for under equity method, in accordance with R.O.C. GAAP, all unrealized gain from the transaction was eliminated. As of December 31, 2008, the unrealized gain of \$337,709 was recorded as other liabilities-deferred debts.

#### D.Lease

a) Rental income (recorded as non-operating income) generated from the operating premises and parking lots leased to the related parties are as follows:

		For the years ended December 31,			
		2008		2007	
	Leasehold	% of Total			% of Total

# (4)Significant contracts with related parties

- A. The Company entered into an agreement with EIC for consulting services on business management, computer information, and shipping affairs. Except for payments made on behalf of the Company which are charged on actual amounts, the remaining fees are charged on an hourly basis or by cost plus method. The contract took effect on July 1, 1996 and continues to be effective unless terminated.
- B. The Company entered into an agreement with EIC for services, such as cargo-forwarding and freight-collecting. As of December 31, 2008 and 2007, the receivables were \$32,833 and \$60,901, respectively. The contract has been effective since 2002 unless terminated.
- C. The Company entered into an agreement with ESRC for security service in the Taipei office, the Kaohsiung office, and the Kaohsiung container yards. The monthly service fees were \$940 for Taipei and \$1,614 for Kaohsiung. For commitment of the long-term contracts, please refer to Note 7.
- D. The Company entered into agency agreements with its related parties to manage petty cash required by their vessels, and payments of Taiwanese crew salaries and insurance premiums. The transactions are recorded as "temporary debits". As of December 31, 2008 and 2007, the debit balances of the account are as follows:

	Decem	ber 31, 2008	Decen	nber 31, 2007
GMS	\$	15,548	\$	10,733

HEMLOCK	USD	17,600	USD	-
ITS	USD	10,000	USD	10,000

C. A former stockholder of the Company sold some of its shares through issuance of global depository receipts (GDRs). The issuance of GDRs was approved by the SEC on June 19, 1996 as per Letter (85) Tai-Cai-Zheng (1) No. 35410. On August 2, 1996, the GDRs were approved by the UK governing authority to be listed on the London Stock Exchange and were issued in Asia, Europe and the US. The initial number of units issued was 5,449,592, representing 54,495,920 shares of the Company's common stock at \$50.50 (in dollars) per share, and the number of supplementary units issued was 817,438. In total, the number of units issued was 6,267,030, representing 62,670,300 shares of the Company's common stock at \$50.50 (in dollars) per share, and the GDRs issued amounted to USD115 million. Another 2,053,122 units, representing 20,531,279 shares of the Company's common stock, were issued during the period from 1997 to December 31, 2008. As of December 31, 2008, 7,988,822 units were redeemed and 331,330 units

were outstanding, representing 3,313,359 shares of the Company's common stock.

- D. As of December 31, 2008, the medium-term loan facilities granted by the financial institutions with the resolution from the Board of Directors to finance the Company's purchase of new containers and general working capital requirement amounted to \$20,304,897 and the unutilized credits was \$4,867,507.
- E. As of December 31, 2008, details of the loading and discharging equipment acquired to support the operations of the No. 4 and No. 5 Container terminal at Kaohsiung Harbor were as follows:

Item	Contrac	t Amount	Amou	ınt Paid	Amour	nt Accrued
Rubber-tired Gantry Crane	USD	5,500	USD	4,400	USD	1,100
Electrical Device Rubber-tired						
Gantry Crane	EUR	948	EUR	284	EUR	664

F. As of December 31, 2008, the estimated amount of ship rental expense in the following years under long-term contracts is set forth as follows:

Year Year	Ar	nount
2009	USD	89,738
2010		52,418
2011		5,306
	USD	147,462

- G.As of December 31, 2008, the estimated amounts of security service in the following years under the long-term contract that the Company entered into with ESRC was \$30,644.
- H.As of December 31, 2008, the amount of guarantee notes issued by the Company for loans borrowed was \$1,500,000.

### **8.SIGNIFICANT CATASTROPHE**

None.

# 9. SUBSEQUENT EVENTS

None.

# 10.OTHERS

#### (1) Significant donation events

For the year ended December 31, 2008, the Company donated USD 4,000 to Association for Across the Taiwan Straits in response to Sichuan earthquake fund raising activities.

### (2) Financial statement disclosure

Certain accounts in the 2007 financial statements had been reclassified to conform to the 2008 financial statement presentation.

The following summarizes the methods and assumptions used in estimating the fair value of financial instruments:

- A. The fair values of short-term financial instruments were determined using their carrying value because of the short maturities of these instruments. This method applies to cash and cash equivalents, notes and accounts receivable/payable, other financial assets, refundable deposits, restricted assets, short-term debts, short-term bills payable and guarantee deposits received.
- B. For financial assets at fair value through profit or loss and available-for-sale financial assets with quoted market price available in an active market, the fair value is determined using the quoted market price. When there is no quoted market price for reference, a substitute valuation technique is used to measure the fair value which incorporates all factors that market participants would consider in making estimations and assumptions for setting a price and wherein such information is available to the Company.
- C. Financial assets carried at the cost, consists of unlisted stocks or those not actively traded in an active market. Their fair value could not be measured reliably; hence, such instruments are measured at cost in compliance with applicable accounting standards. For bond investments with no active market, the carrying value is used to estimate its fair value when there is no market price for reference.
- D. Long-term accounts receivable are interest-bearing financial assets with floating interest rate, thus the carrying value is close to the fair value.
- E. Fair values of long-term loans are estimated based on the present values of future cash flows. For bank loans associated with floating interest rate, the carrying value represents its fair value.
- F. Fair values of corporate bonds payable are determined as the quoted market prices when available. When the quoted market prices are not available, fair values are estimated based on financial information or other information.
- G. Financial liabilities carried at costs are equity-linked instruments which are to be settled with equity instruments with no quoted market prices or with fair values that can not be reliably measured. Such instruments are measured at costs in accordance to the rules stipulated in the "Guidelines for Preparation of Financial Statements by Securities Issuers".
- H.The fair values of derivative financial instruments, except for those in parapragh G, are determined based on the estimated amounts to be received or paid upon termination of contracts on the balance sheet date. Unrealized gains or losses arising from unsettled contracts are generally included. Quotation prices from counterparties are available for reference in setting fair values of the Company's derivative financial instruments.

# (4)Information on significant gain/loss on financial instruments and equity items

- A. For the years ended December 31, 2008 and 2007, total interest income from financial assets and liabilities at fair value through profit or loss amounted to \$110,362 and \$171,390; whereas the total interest expense amounted to \$228,469 and \$170,908, respectively.
- B. For the years ended December 31, 2008 and 2007, the adjustment of shareholders' equity resulting from available-for-sale financial assets was debit \$353,561 and \$160,282; whereas the total loss or gain deducted from the adjustment of shareholders' equity resulting from available-for-sale financial assets was \$23,599 and \$12,549, respectively.

# (5)<u>Information on interest rate risk positions</u>

As of December 31, 2008 and 2007, the financial assets with fair value risk due to the change of interest rate amounted to \$4,991 and \$12,349; whereas the financial liabilities with fair value risk due to the change of interest rate amounted to \$3,818 and \$12,265, respectively. The financial assets with cash flow risk due to the change of interest rate amounted to \$447,041 and \$1,499,842; whereas the financial liabilities with cash flow risk due to the change of interest rate amounted to \$16,337,390 and 6,149,298, respectively.

### (6) Risk policy and hedging strategy

The financial instruments held by the Company, other than derivative instruments, are composed of cash and cash equivalents, stocks, funds, bank loan, and corporate bonds. Such financial instruments are held for maintaining adequate operating capital. The Company also held other financial assets and liabilities, such as accounts receivable and payable generated from operating activity.

The transactions associated with derivative instruments mainly include interest rate swap and oil swap. The primary objective is to avoid the interest rate risk and fuel price variation arising from operating and financing activities.

The primary risks of financial instruments are cash flow risk associated with interest rate fluctuations, exchange rate risk, credit risk, and liquidity risk. The risk management policies are set forth below:

#### Cash flow risk associated with interest rate fluctuations

The Company's major exposure to cash flow risk associated with interest rate variations comes primarily from long-term financing with floating interest. The Company adopts a combination of fixed and floating interest rates methods upon issuance of loans to manage such interest rate risks. In addition, the Company also engages in interest rate swaps to minimize cost of borrowings.

As of December 31, 2008, the carrying values of the Company's financial instruments exposed to interest rate are summarized in the order of maturity as follows:

### a) Fixed interest rate

		_ <u>W</u>	ithin l year	1	-2 years	2	2-3 years	over 3 years	<u> </u>	Total
	cash equivalent n (Mitsubishi UFJ	\$	4,640,189	\$	-	\$	-	\$	- \$	4,640,189
Financi	al Group)	(	910,000)		•		-		- (	910,000)
11	(Mizuho Bank)	(	100,000)		-		-		- (	100,000)
11	(Hua Nan Bank)	(	300,000)		-		-		- (	300,000)
11	(Chang Hwa Bank)	(	610,000)		-		-		- (	610,000)

#### b) Floating interest rate

	Wit	hin 1 year	1-2	years		2-3 years	over 3 years	Total
Cash and cash equival-	ent \$	447,041	\$	-	\$	- :	- \$	447,041
Bank loan (HSBC)	(	900,000)		-		-	- (	900,000)
" (Chang Hwa	a Bank)	-		-	(	1,500,000)	- (	1,500,000)
" (Bank of Ea	st Asia)	-		-	(	750,000)	- (	750,000)
" (Taishin Ba	nk)	-		-	(	3,887,390)	- (	3,887,390)
" (Bank of Ta	iwan)	-		-		- (	3,200,000) (	3,200,000)
" (Taipei Fub	on							
Bank)		-		-	(	3,100,000)	- (	3,100,000)
" (Taipei Fub	on							
Bank)		-	(	200,000)	(	200,000) (	600,000) (	1,000,000)
" (Bank of Ta	iwan)	-	(	500,000)	(	500,000) (	1,000,000) (	2,000,000)

The interest of financial instruments associated with the floating interest rates is remeasured within 1 year period and the interest for financial instruments associated with the fixed interest rate is fixed to maturity. The financial instruments not included in the above table are not subject to interest payments and thus, do not have inherent interest rate risk.

### Exchange rate risk

Although the Company is exposed to exchange rate risk, the Company has stable cash inflows denominated in foreign currencies for meeting cash outflows denominated in foreign currency due to the fact that the Company operates in international transportation industry. In order to minimize exchange rate risk, the Company also engages in activities, such as borrowing of US dollar loans, etc.

### Credit risk

The Company only deals with third parties with good credit standings. In compliance with the Company's policies, strict credit assessment is to be performed by the Company prior to providing credit to customers. The occurrence of bad debts is also minimized by the Company's practices in continuously monitoring and assessing collections on notes and accounts receivables and making adjustments to the credit terms granted for each customer based on the conclusion drawn from such assessment. Moreover, the Company is restricted from engaging in credit trading with other business units operating under other functional currencies unless permission from the highest instruction unit has been received.

Other financial instruments held by the Company are subject to credit risk arising from the failure of counterparty to settle their contractual obligations as and when they fall due. Since the Company only deals with third parties with qualifying credit standings, no collateral is required by the Company which also represents that the maximum credit exposure amount equals to the relative carrying value. The maximum credit exposure amount for various financial assets held by the Company is analyzed as below:

	December 31, 2008						
Financial instruments		Book value	· ·	Maximum credit exposure amount			
Financial assets at fair value through	_						
profit or loss							
Equity security	\$	92	2	92

Investments in bonds without active market							
- non-current							

Credit risk refers to the risk of counterparty's failure to settle contractual obligations as and when they fall due. The credit risk presented in the above table is the positive net amount of all contracts with positive fair values at the balance sheet date. The credit risk amount presented is the loss that may be incurred by the Company in the case of counterparty's default. Since the counterparties of the Company are business enterprises or financial institutions with good credit rating, the potential credit risk event is remote. In addition, since the Company is not concentrated in transactions with one individual or counterparty, no concentration of credit risk is evident.

12,157

12,157

Corporate bonds

# Liquity risk

The Company achieves the objectives of effective use of capital and stabilization of capital by adjusting capital through the use of cash and cash equivalents, financial instruments held for trading, bank loans and corporate bonds, etc. The operating capital of the Company is sufficient in meeting capital on demand; therefore, no significant liquidity risk is expected.

# (7) Hedging activity

# Cash flow hedge

The Company holds interest rate swap contracts for avoiding the risk resulting from variation between floating and fixed rate, the effectiveness of hedging was within a range from 80% to 125%.

Note 1: The number are assigned as follows:

"0" denotes issuer

The investee is numbered from "1" in sequence by different company.

- Note 2: Nature of the counterparty's relationship with the Company or its subsidiaries
  - "1" denotes the endorsements/guarantees provided to the companies which have transactions with the Company or its subsidiaries.
  - "2" denotes the endorsements/guarantees provided to the subsidiaries of which the Company holds more than 50% of the common stock.
  - "3" denotes the endorsements/guarantees provided to the investees of which the Company together with its subsidiaries hold more than 50% of the common stock.
  - "4" denotes the endorsements/guarantees provided to the companies which directly or indirectly hold more than 50% of the Company's common stock.
  - "5" denotes the endorsements/guarantees provided pursuant to construction contracts.
  - "6" denotes the endorsements/guarantees provided to joint venture companies based on the Company's or its subsidiaries proportionate equity interest in the Company.
- Note 3: The equation of the maximum limits and amounts should be explained. If there are contingent losses in the financial statements, the amount should be interpreted by the Company.

  According to the Company's credit policy, the total amount of endorsements or guarantees provided by the Company or its subsidiaries should not exceeded 250% of the net worth states in the latest financial statement.

The calculation is as follows:

The Company: NT\$65,291,138 \*250%=NT\$163,227,845

#### Note 1:Nature of loans extended

- "1" denotes the loans extended to the companies which have transactions with the Company or its subsidiaries.
- "2" denotes the loans extended to the companies which require short-term financing.
- Note 2:The reason that the loan was granted and the usage of the loan should be stated, if the nature of the loan is "2".
- Note 3: The explanation of the equation of the limits and amounts is required and set forth as follows:
  - 1. According to the Company's credit policy, the total amount of loans granted to a single company should not exceed 20% of the net worth stated in the latest financial statements.

The calculation is as follows:

The Company:NTD65,291,138 \*20%=NTD13,058,228

2. According to the Company's credit policy, the total amount of loans granted by the Company or its subsidiaries should not exceed 40% of the net worth stated in the latest financial statements.

The calculation is as follows:

NTD65,291,138 \*40%=NTD26,116,455

# 12.SEGMENT INFORMATION

# (1)Financial information by industries

The Company is engaged in only one single industry, i.e. international marine transportation and shipping agency. Therefore, no disclosure is required.

### (2) Financial information by geographical areas

The Company is engaged in international marine transportation; however, its foreign-port formalities regarding arrival and departure of ships, cargo stevedoring and forwarding, collection of freight, and payment of expenses incurred in foreign ports are handled by overseas shipping agents. Therefore, no disclosure is required.

# (3)Export information

As the Company is engaged in international marine transportation, every vessel sails between the major harbors in the world. Therefore, no export sales are reported.

# (4)Information on major customers

The Company provides services to customers all over the world. No single customer of the Company accounts for more than 10% of the Company's operating revenues.
